AFTER writing that severe letter of criticism against the administration to Senator Jones, Grant is now inclined to excuse Garfield in a measure for the Conkling disturbance, and lays the blame on Blaine and the N. Y. Tribune. That worthy functionary and the journals can well bear the burden, since they earry with them the commendation of the country at large.

ROBERTSON thinks the Yew York Assembly will accomplish its work and adjourn before the first of July, at which time he expects to enter on the commissioned business of collector of the port of New York. From Missouri; making it the best present indications his expectations may be cut a little short. His commission is ready to be filled as soon as the Conkling-Platt affair is settled.

THE late Cote Brilliante races were to reach the largest number of readers. not all that was expected. The West has not given the attention to the turf that would give the success in this field that our eastern neighbors have had. The attendance at the track has been small, receipts low and interest lagging. The metropolis of the Mississippi valley must stir up or look in another direction for laurels.

THE greenbackers of Iowa have lackled course to another tide of reform. They recently nominated Mrs. Mary E. Nash as their candidate for superintendent of public instruction; but she promptly declines the honor and expresses her determination to abide by the doctrines of her old party. Our greenback friends must swell their heresies to larger proportions before they can expect to bag game by such schemes.

THERE is talk of nominating Mr. Tilden for governor of New York on the democratic ticket next year. Although the democrats stand a fair chance of carring New York, in view of rupture in the republican ranks, it is very doubtful if Mr. Tilden could be elected. He has the pronounced enmity of every thief, bummer and blackleg in the party; and the corrupt eliments, led by John in connection, doing every style and Kelly, have proved strong enough in variety of work at the LOWEST billiards the past to defeat him. But it would RATES. Orders solicited. be a blessing to the democratic party and the country if Mr. Tilden were to resume its leadership. The democracy won its only national victory in twenty years under Mr. Tilden's cap-
