Mrs. J. C. Cunningham.

We have just received a new and beautiful line of waists from New York. We have them in black taffeta, from \$3.50 up; black satin at \$3.75, and black brilliantine at \$1.60. Come and see them. They are extraordinary values.

We handle nothing but the celebrated Dittman make of shoes, for ladies and children. They are the best on the market, and our customers must have the best. Our stock of these is large and complete. We are making extremely low prices on them.

Mrs. J. C. Cunningham.

ST. LOUIS,

A PRESIDENTIAL MESSAGE

Mr. McKinley Calls Attention to the Necessity for a Cable Across the Pacific.

TOPICS DISCUSSED BY THE CABINET.

The Question of the Transportation of the \$3,000,000 to Cuba and an Extra Session of Congress Briefly Considered—The President Signs the Treaty of Peace.

Washington, Feb. 11.—The president's message on the Pacific cable transmitted to congress to-day is as follows:

As a consequence of the ratification of the treaty of Paris by the senate of the United States and its expected ratification by the Spanish government, the United States will come into possession of the Philippine Islands on the further shores of the Pacific. The Hawaiian Islands and Guam being United States territory, and forming convenient stopping places on the way across the sea, the necessity for speedy cable communication between the United States and all the Pacific islands has become imperative.

Such communication should be established in such a way as to be wholly under the control of the United States whether in time of peace or war. At present the Philippines can be reached only by cables which pass through many foreign countries, and the Hawaiian Islands and Guam can only be communicated with by steamers, involving delays in each instance of at least a week. The present conditions should not be allowed to continue for a moment longer than is absolutely necessary.

The time has now arrived when a cable in the Pacific must extend as far as Manila, lying at the Hawaiian Islands and Guam on the way. Two methods of establishing this cable communication at once suggest themselves. First, construction and maintenance of such a cable at the expense of the United States government, and second, construction and maintenance of such a cable by a private United States corporation under such a safeguard as congress shall impose.

I do not make any recommendation to congress as to which of these methods would be the more desirable. A cable of the length of that required so much time for construction and laying that it is estimated that at least two years must elapse after giving the order for the cable before the entire system could be successfully laid and put in operation. Further deep sea soundings must be taken west of the Hawaiian Islands before the best route for the cable can be selected. Under these circumstances it becomes a paramount necessity that measures should be taken before the close of the present congress to provide such means as may seem suitable for the establishment of a cable system.

I recommend the whole subject to the careful consideration of the congress and to such prompt action as may seem advisable.

WILLIAM MCKINLEY.

The Cabinet Meeting.

Washington, Feb. 11.—At the cabinet meeting to-day the president read a brief extract from the report of the war investigation commission and the matter was discussed informally. During the conversation a can of roast beef, which had been taken from the commissary stores was brought in and opened. The members present examined it as well as could be done with the means at hand, and all declared that so far as they could determine it was in perfect condition, wholesome and sweet. The question of the transportation of Cuba of the \$3,000,000 with which the insurgent army is to be paid off, and the kinds of money to be sent was briefly considered. It was agreed that the Cubans could have any kind of money they wished, whether gold, silver or silver certificates, or a part in each. The question of an extra session of congress was also discussed, and it is the opinion of members of the cabinet that in case of the failure of the army reorganization bill an extra session will be necessary. The president during the meeting called attention to the urgent necessity for an American cable across the Pacific and read the message he had sent congress on the subject.

The President Signs the Treaty.

Washington, Feb. 11.—The treaty of peace was signed by the president at 2:35 this afternoon.

Broke Down a High Bridge.

Sedalia, Mo., Feb. 11.—A car on a Missouri Pacific freight train jumped the track at Strasburg, 56 miles west of here, knocking down a bridge 100 feet in length. The caboose went down with the wreck and Conductor Lawrence was injured. It is not known when the bridge can be rebuilt. In the meantime trains from here to Kansas City leave the main line at Holden, run thence to Harrisonville over a branch and strike the main line again at Pleasant Hill, six miles west of Strasburg.

Colder Weather for the Southwest.

Kansas City, Mo., Feb. 11.—The northwest is covered by an atmosphere from 10 to 40 degrees below zero, with very high barometric pressure. A storm area is developing in the extreme southwest which, by the ordinary course of events, will take a low southerly course, causing a strong incursion from the frigid north and changing the southeast winds of today in Nebraska and Kansas into a genuine "norther" in those states on Saturday.

Murderer Discovered by Death.

Kansas City, Mo., Feb. 11.—George Lee, who shot and killed Henry M. Stonestreet in Lees Summit 30 years ago and had been a fugitive from justice ever since, died in Meridian, Miss. Letters from his widow telling about the death and funeral have been received by several of Lee's relatives in this county. The killing of Stonestreet by Lee was one of the famous tragedies of this county in the days right after the war.

Prices for Human Heads.

Tacoma, Wash., Feb. 11.—Several Catholic priests and more than 1,000 native Christians have reached Ichang from Chang Yang and Lichuan, in China, where their chapels were burned and the houses of native Christians were destroyed. In both Szechuen and Shansi provinces the Yumantse rebels have offered a reward of \$80 for the head of each male foreigner and \$50 for each woman or child.

Will Revolutionize Telegraphy.

Cleveland, O., Feb. 10.—The Crehore-Squire company, of this city, has been incorporated with a capital stock of \$1,000,000 to conduct a telegraph business. The promoters of the new company state that they will adopt a new system which will revolutionize telegraphy. It is called the "sign wave" system and it is said will greatly expedite cable communication. Senator H. A. Garfield, oldest son of the dead president, is one of the incorporators.

Chickasaw Disbursement Bill.

Ardmore, I. T., Feb. 10.—A bill was introduced in the house yesterday afternoon for ratifying among the citizens the balance of the money due the Chickasaw nation from the federal government, distributing it out per capita to the men, women and children. Gov. Johnston says the bill will pass. There will be about \$300,000 to pro rate and that will give the Chickasaws a good sum of money.

To Operate Gigantic Paper Mills.

New York, Feb. 10.—The Great Northern Paper company, with a capital stock of \$4,000,000, will begin the construction of mills on the Penobscot river, in Maine, with a capacity of 250 tons of newspaper per day. They have purchased about 250,000 acres of timber land situated along the Penobscot river and the lakes tributary thereto and water power ample at all times for the operation of these mills.

Chinese Rebels Loot a City.

Victoria, B. C., Feb. 10.—Advices from the orient state that the Chinese rebels in Formosa are gaining strength and that many cities are being looted. A battle occurred between the Chinese insurgents and the Japanese troops at Taipei. The engagement resulted in victory for the rebels. Hundreds were cut down and the Japanese left between 350 and 400 dead on the field.

ATTACK UPON CALOOCAN

The American Forces Make a Combined Movement and Reduce the Place in Short Order.

THE CHARGE OF THE KANSAS REGIMENT.

The Earthworks Carried Under a Heavy Fire and the Filipino Flag Lowered—No Uprising at Manila—Iloilo Ordered to Surrender—Need for Signal Corps Men—A Kansan Among the Wounded.

Manila, Feb. 11.—The American forces at 3:40 this afternoon made a combined attack upon Caloocan and reduced it in short order. At a signal from the tower of the De La Loma church the United States double-turreted monitor Monadnock opened fire from the bay, with the big guns of her fore turret on the earthworks with great effect. Soon afterwards the Utah battery bombarded the place from the land side. The rebels reserved their fire until the bombardment ceased, when they fired volleys of musketry as the Montana regiment advanced on the jungle.

The Kansas regiment on the extreme left, with the Third artillery deploying to the right, charged across the open and carried earthworks, cheering, under a heavy fire. Supported by the artillery at the church the troops further advanced, driving the enemy, fighting every foot, right into the town line and penetrated to the presidencia and lowered the Filipino flag at 5:30 p. m.

The enemy's sharpshooters, in the jungle on the right, fired at long range on the Pennsylvania regiment, but the rebels were soon silenced by shrapnell shell and the Pennsylvanians remained in the trenches. As the Americans advanced they burned the native huts. The rebels were mowed down like grass but the American loss was slight.

No Uprising in the City.
Manila, Feb. 11.—In anticipation of a native uprising in this city, unusual precautions were taken here last night by the American military authorities. Fortunately the steps taken proved unnecessary. The Filipinos are evidently convinced that an uprising would prove suicidal to them. Scouting parties of the Dakota regiment surprised some Filipino scouts at the bridge across the Paranaque river yesterday. The enemy retired hurriedly, swimming the stream in order to reach the main body of the rebels entrenched opposite troop K, of the Fourth cavalry.

Since the Wyoming regiment relieved the Twenty-third regiment at the water works there has been no change in Gen. Hale's position. The Nebraska regiment, Colorado regiment, South Dakota regiment and Utah artillery are occupying safe posts. On the left Gen. Otis' brigade, consisting of the Twentieth Kansas regiment, eight companies of the Pennsylvania regiment, the Montana regiment and four batteries of the Third artillery, stretches back, near Caloocan, to the Chinese cemetery, where there is an excellent signal station on a hill, where, from a church tower, the signal men can communicate with the fleet.

Iloilo Ordered to Surrender.

Washington, Feb. 11.—Iloilo is now being bombarded by a portion of Admiral Dewey's fleet, unless the natives have surrendered on the demand made by Gen. Miller, who is in command there. Gen. Otis advised Secretary Alger he had sent the first Tennessee infantry to reinforce Gen. Miller and the commanding officer of that organization carried instructions to him to demand the evacuation of Iloilo by nine o'clock this morning. If this demand was not complied with immediately the instructions were to begin the bombardment of Iloilo and continue it until the rebels ran up the white flag. The Boston, Baltimore and Petrel are now at Iloilo and if the rebels are indiscreet enough to refuse

to lay down their arms, the heavy guns of these ships will be turned upon them and followed up by the troops, who have been lying in the harbor for some time past.

Pressing Need for Signal Corps Men.

Washington, Feb. 11.—Owing to the pressing need for additional signal corps men in the Philippines, and the difficulty of getting reinforcements there from the United States, it has been decided by the war department to strengthen the corps now in the islands by the addition of one company of 60 men recruited from the volunteers in the forces now stationed there.

A Kansan Among the Wounded.

Manila, Feb. 11.—One of the Kansas heroes among the wounded is Daniel Hewitt, of Topeka. Hewitt has a severe flesh wound in the right thigh. His condition is reported by the surgeon to be very good. He is a son of ex-Postmaster Hewitt, of North Topeka.

Will Raise Wages of 36,000 Men.

New York, Feb. 11.—John W. Gates, of the American Steel & Wire company, the barbed wire trust, confirms the report that the company would advance the wages of its 36,000 employees March 1. These increases in wages, Mr. Gates said, which would amount in the aggregate to between \$750,000 and \$1,000,000 a year, had been made by the management entirely of its own accord.

Respect to Garcia's Memory.

Havana, Feb. 11.—The United States gunboat Nashville, bearing the body of Gen. Calixto Garcia, steamed slowly into Havana harbor yesterday, the guns of Moro castle and the American squadron saluting her. Everywhere flags were lowered to half mast and black streamers soon surmounted the Cuban banners.

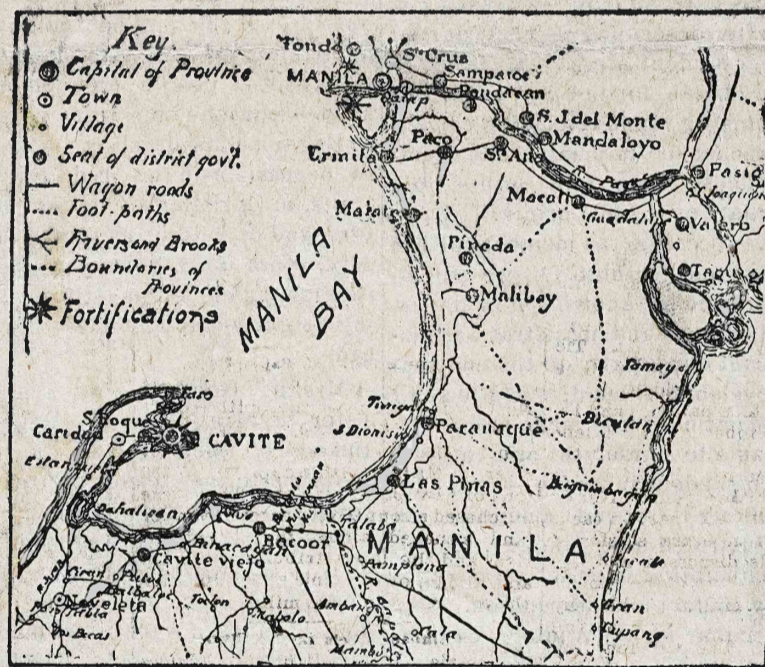

Missouri Peach Trees Damaged.

Nevada, Mo., Feb. 11.—The peach and apricot crops of Vernon and Cedar counties are reported killed. The loss to crops is estimated at more than \$100,000. The weather is the coldest known here in 30 years.

Asphyxiated by Illuminating Gas.

Shippensburg, Pa., Feb. 10.—Dr. Robert C. Stewart was found dead in his room this morning, having been asphyxiated last night by illuminating gas. Two dogs in the room were also found dead. There are two stop-cocks on the gas feed pipe and it is supposed that in turning off one the doctor accidentally turned on the other.

MAP OF MANILA AND VICINITY.

The above map shows the eastern and southern suburbs of Manila. The rebels have been encamped in a semicircle around the city, extending from Malabon on the north to Malate on the south. Their main strength, however, is west of the city, in and around Santa Ana and Mandalayo, their forces near the shores of the bay being smaller through fear of shells from Dewey's ships should trouble ensue. It was the force to the southeast of Manila which forced the recent fighting.

One Tragedy Leads to Two Others.

Denver, Col., Feb. 10.—Henry P. Rhodes, ex-assistant United States district attorney, died from wounds inflicted by himself with a razor. He was 81 years old. Last night Mrs. Lavinia, a young Russian widow, said to have been the fiancée of Rhodes, killed her little son and herself at the Arno hotel, where Rhodes took his life.

Killed His Wife with an Ax.

Burlington, Ia., Feb. 10.—Isaac Nelce, a laborer at Gladstone, Ill., killed his wife with an ax yesterday morning. The neighbors say the man and his wife quarreled frequently of late. The murderer gave himself up and is now in jail. He is 40 years old, and has seven or eight children, ranging in age from two to 16 years.

Washed Six Men Overboard.

Vancouver, B. C., Feb. 10.—Mail advices say that the steamer Kinship Maru, which sailed from Seattle, December 28, lost six men overboard on her trip across. When two days on the wind blew a gale from the northwest, with mountainous seas. Some of the crew led by Mr. Laprack, chief officer, secured hatch covers and all movable fittings on the after deck, when a heavy sea broke on board, completely filling the after deck and washing overboard the apprentice, officer and four sailors.

Stove Works Burned.

Mansfield, O., Feb. 10.—An explosion in the jannaping department of the Baxter stove works caused a fire with a loss of \$100,000, with only a fraction as much insurance. The fire burned with terrible severity and within an hour nothing but the walls remained.

SNOW IN COLORADO.

A Thousand Men Start Out from Leadville
to Clear the Tracks So That Coal May
Be Brought to the City.

Leadville, Col., Feb. 10.—One thousand men armed with picks and shovels started out this morning to clear the snow and ice off from the Denver & Rio Grande tracks below this city, so that coal may be brought in to enable the smelters and mines to continue work, or at least to keep the mine pumps in operation. The Leadville Pumping association, which is unwavering the down-town mines that have been flooded since the big strike, has only enough coal to last 24 hours. The stoppage of the pumps, just on the eve of completing the important work which has been in progress for the past six months, would be a serious blow to Leadville mining interests. So the mine and smelter managers decided to help the railway companies in opening up their lines and the shovellers sent out by them to-day will receive the same wages as when working in the mines and smelters. Many business men have also gone out as volunteers to shovel snow. After the Rio Grande tracks are cleared the snow shovellers will go to the aid of the Colorado Midland railway.

The snowstorm which had been continuous, with brief intermissions, for 16 days, stopped last night and the temperature has risen, but the indications are for more snow. Aspen is entirely isolated, the railroads being blockaded and wires down. The Midland people hope to have their line open to the west within 48 hours. The Rio Grande tracks in the Grand River canyon are buried under great piles of snow which has fallen from the almost perpendicular mountain sides.

For Over Fifty Years

Mrs. Winslow's Soothing Syrup has been used for over fifty years by millions of mothers for their children while teething, with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for Diarrhoea. It will relieve the poor little sufferer immediately. Sold by druggists in every part of the world. Twenty-five cents a bottle. Be sure and ask for "Mrs. Winslow's Soothing Syrup," and take no other kind.

The Hudson River Frozen.

Matteawan, N. Y., Feb. 11.—The weather in this section of the Hudson river valley to-day is the coldest experienced here in many years. The Hudson river is frozen solid from shore to shore. The Fishkill water works are frozen up and no water could be obtained from the villages of Fishkill and Matteawan. A water famine is feared.

Out the Ice to Immerse Dunks.

Burlington, Kan., Feb. 11.—As the result of special meetings which have been held at the Dunkard church in the country east of here, six persons were baptised in the chilly waters of Crooked creek. It was necessary to cut the ice from the creek to get at the water.

About Catarrh.

It is caused by a cold or succession of colds, combined with impure blood. Its symptoms are pain in the head, discharge from the nose, ringing noises in the ears. It is cured by Hood's Sarsaparilla which purifies and enriches the blood, soothes and rebuilds the tissues and relieves all the disagreeable sensations.

HOOD'S PILLS cure all liver ills. Mailed for 25c by C. I. Hood & Co., Lowell, Mass.

Are you restless at night and harassed by a bad cough? Use Ballard's Horehound Syrup. It will secure you sound sleep and effect a prompt and radical cure. Price 25 cents and 50 cents. For sale by Porch & Crook.

Found Frozen in His Sleigh.

Buffalo, N. Y., Feb. 10.—John Weith, aged 37 years, a carpenter, was found last night frozen to death in his sleigh in the suburbs of the city. The thermometer at the weather bureau registered eight degrees below zero at eight o'clock this morning.

Faults of digestion cause disorders of the liver and the whole system becomes deranged. Herbine perfects the process of digestion and assimilation, and thus makes pure blood. Price 50 cents. For sale by Porch & Crook.

Crew Given Up for Lost.

Boston, Feb. 9.—The Boston brig Mary Gibbs, which left Newport News 150 days ago for Para, Brazil, with coal, has now been given up for lost by her owners, who also believe that the crew of eight men perished with the wreck.

ARE BANQUETTED.

Fortnightly Club Royally Entertained at the Thatch.

RESPONSES TO THE TOASTS

Program Furnished a Rare Literary Treat. Different Subjects Under Discussion.

The second annual banquet of the Fortnightly Club, which occurred last evening at the Thatch hotel was a brilliant social function and in every way a delightful affair. Plates were laid for 64 persons, members of the club with a few invited friends, in the spacious dining hall. The table decorations were fine and the service faultless. An excellent menu, consisting of turkey, ham, salads, hot rolls, fruits, cake, cream, etc., was first partaken of after which the literary part of the program was taken up and it is safe to say a more learned and interesting treatise upon the various subjects could not have been provided. Mr. Chas. D. James acted as toast master, introducing each toast with few remarks. First came a cornet solo by Dr. Bergstresser, with piano accompaniment by Miss Crystal Davis, entitled "Massa's in de Cold, Cold Ground" which was such a pronounced success, from a musical standpoint, that they were compelled to respond to an enthusiastic encore.

Mrs. M. R. Regan was detained at home and Dr. James was too ill to attend. With the exception of the two toasts assigned to them the printed program was carried out.

"Heart Prints," the subject assigned to Mrs. Chas. E. Davis, was hardly more interesting. After describing a visit during her student life, to a farm in Michigan for the purpose of examining upon a boulder certain tracks or imprints, she said: "Those were foot prints, but what of heart prints? Upon this occasion as members of our beloved Fortnightly, we are interested in knowing how its associations and ministrations imprint our hearts, to the end that love shall abound, that life shall be enriched and made more valuable to ourselves and others. This it does in many ways, not merely its social amenities, as illustrated here tonight, but in acquainting us with each other by contact and association. The peculiar mental stimulus characteristic of the Fortnightly atmosphere tends to bring out the best there is in us of sentiment, knowledge and taste, and develops that wisdom which enables us to build better than we know, and to command our own self-respect which, by the way, is one of the most difficult tasks vouchsafed to mortals. What were the nail prints to the physical life, Jesus, compared to the imprints on the great throbbing heart, as He contemplated the injustice and ingratitude of those for whose welfare, He had devoted his life. The feeling heart lines largely in a sympathetic appreciation of excellence, hence touch it but rightly and it pours forth a thousand harmonies unheard before."

C. D. James in responding to the toast, "Expansion" took very pronounced ground against the imperial policy. In his able address in part he said: "The student of our political history recall the various additions to our territorial limits commencing with the Louisiana purchase, to the purchasing of Florida from Spain, to the annexation of Texas and the seizure of the country of the west taken from Mexico, down to the purchase of Alaska, one of the

most stupendous fakes, ever endorsed by a sensible man, to the annexation of Hawaii." Because of the favorable result of annexation of contiguous continental territory, is no argument in favor of territorial annexation, not contiguous or colonial possessions or in other words, of this republic adopting an imperial policy. The great fundamental doctrine of this country is, the authority to govern is obtained by the consent of the governed and that all men are created equal, with certain inalienable rights, among which are life, liberty and the pursuit of happiness. Those who would carry the doctrine of expansion to the extent of annexing the Philippines and their inhabitants of semi-barbaric habits and manners, are to my mind sounding the death knell in the beginning of the end of the great republic. They would fasten upon us a colonial system and policy that our forefathers fought against in the days of the Revolution. There is a legal claim against expansion which is often overlooked and that is the doctrine laid down by the supreme court of the United States in the Dred Scott case, that has been the law every since. It was that the U. S. has no right to hold territory, unless it be ultimately for the purpose of forming this territory into a state.

"Patriotism" was the toast to which Claud Fuller responded and his words had the true ring. He said in part: "The spirit of patriotism is the spirit that moves the world, it being a love of country, a love of God and a love of home. Patriotism lies in the knowledge and power of citizenship. And as a nation's heart is its patriots, pumping vitality into every channel, they must furnish nourishment or else the heart will become cold and cease to perform its function. A nation can be no greater than its citizens. And the promptitude with which the late volunteers answered the nation's call has again stamped the Americans as a patriotic people and demonstrated that the spirit that gave to Paganism its dazzling lustre, to barbarism its redeeming traits, to Christianity its heroic form and to Americans their liberty, is not dead, but the light of its glowing embers is still shining brightly amongst the Americans."

Mrs. F. Goodwin, who is a sister of Mrs. Chas. C. Davis, and a very talented lady, in responding to the toast, "Eureka Springs" said:

The lovers of nature certainly finds in the varied scenery, the clear blue sky, the towering pines, the hugh rocks, the deep, dark gorges, the many crystal springs, and the infinite variety of novelties that exist much if not all that his nature craves, and these so charm him, as to disable him from going aught but perhaps a glowing description of this locality. On the contrary the prosaic (or practical individual) sees little or nothing to admire, as he notes the absence of waving grain, of teeming commerce, and the click of machinery. But I imagine if he tarry awhile in your midst he can not help but note its natural health conditions, its healing waters, natural and artificial drainage, absence of decaying vegetables, pine forest, pure mountain air, and that climate combination which gives us a touch of spring, summer, fall, and winter all within twenty four hours."

"How delightful the surprise to us who have sought a sunny clime to awaken after a beautiful northern may day with the thermometer playing around zero. We can however overlook such a freak of nature in Arkansas when Michigan has been credited with about forty below."

Miss Jenkins, who responded to the toast: "Club Women" in a semi-humorous address, said the first womens club was the

broomstick. She then described the various cluds to which the ladies of the country belonged, and in which much good had been accomplished. Her toast was one of the best on the program. R. S. Hamilton responded to the toast, "Hobsons Choice" in a felicitous and entertaining manner, and Wade James spoke on "Reunited," his response being timely and good.

The banquet was exceptionally interesting—was in fact a literary treat.

CONGRESSIONAL PROCEEDINGS.

Several Bills and Resolutions Passed in the Senate—The Sundry Civil Bill in the House

Washington, Feb. 11.—Mr. Platt presented the credentials of Senator-elect Dewey. A bill amending an act to provide for the reimbursement of governors of states and territories for expenses incurred by them in raising and equipping the volunteer army in the war with Spain was reported by Mr. Warren from the committee on military affairs. The bill went over to be printed.

Mr. Allen offered a joint resolution providing for the submission to the legislatures of an amendment to the constitution providing for the election of United States senators by direct vote of the people. The resolution was laid on the table.

Mr. Allen also offered a resolution declaring that the senate reaffirmed the doctrines and principles of the declaration of independence. It went over.

A house bill to establish a national military park to commemorate the siege and defense of Vicksburg was called up by Mr. Money and passed. The bill appropriates \$65,000 for the purposes stated.

Mr. Jones presented a resolution calling upon the secretary of the navy for a concise statement of the expense of the personnel of the navy under the proposed personnel bill, the amount of expense of the 23,500 sailors and the expense of the marine corps under the proposed arrangement. The resolution was passed.

The house, without preliminary business, went into committee of the whole and resumed consideration of the sundry civil appropriation bill. Upon Mr. Cannon's motion general debate was to close with this legislative day.

Mr. Hepburn, chairman of the committee on interstate and foreign commerce, gave notice that at the proper time he would offer the Nicaragua canal bill as an amendment to the sundry civil bill.

Not One from the West.

Washington, Feb. 11.—The National Farmers' Alliance completed a two days' session here. The meeting adopted a platform reaffirming the demands made at former meetings, and, in addition, made a plea for the extension of the rural free delivery postal service. Officers were elected as follows: President, J. C. Wilborn, Old Point, S. C.; secretary-treasurer, A. B. Welch, Victor, N. Y. Vice presidents and an executive committee were also chosen. Not one of the officers is from the west.

Ice-Bound Men Receive Succor.

Chicago, Feb. 11.—The four men who have been imprisoned out in Lake Michigan at the city water supply intake off Sixty-eighth street were reached with provisions by the tug Morford, after a most difficult battle with ice. They followed the outer edge of a gigantic ice floe and then squeezed between divisions of the floe for four miles. The remaining half mile was covered by bobsleds pulled and pushed by hand over the ice field in a bitter wind and temperature 20 below zero.

Appointments for the West.

Washington, Feb. 11.—The president sent the following nominations to the senate, among others: Clinton E. Irvin, of Illinois, assistant justice supreme court of Oklahoma; James W. Powell to be postmaster at the national military home, Fort Leavenworth, Kan., and the following postmasters in Missouri: Abraham M. Johnson, Belton; Rufus D. West, Caruthersville; John N. Bishop, Ironton; David B. Ormiston, Linneus; Samuel J. Wilson, Macon.

Ratification Favored.

Washington, Feb. 11.—The senate committee on Indian affairs agreed to report the bill ratifying the agreement between the Kiowa, Comanche and Apache Indian tribes in Oklahoma. The agreement provides for the allotment of land in severalty to the Indians and the cession of the remainder of their reservation for a consideration of \$2,000,000. The reservation includes about 8,000,000 acres of land on Red river.

G. A. R. Committee Heralds.

Chicago, Feb. 11.—The executive committee of the national council of administration, G. A. R., met to elect a successor to the late commander-in-chief, Sexton, but inasmuch as no commander-in-chief had ever before died in office, the committee shrank from the responsibility of an election until it should receive the opinion of the judge advocate general as to its powers in the premises.

Nine Dead on a River Steamer.

Nashville, Tenn., Feb. 11.—The steamer P. D. Staggs was badly wrecked at the bridge over the Tennessee river at Johnsonville, Tenn., and drifted four miles down the river, and burned. There were 60 people on board the steamer. A telegram from Danville states that all on board were saved except the second clerk, Robert Scott, and about eight roustabouts.

An Aged Kansas Woman Frozen.

Glathe, Kan., Feb. 11.—"Aunt Dicy" Dibbs, who was more than 80 years old and for many years had lived alone, was found dead in her home at Shawnee, this county. It is thought she froze to death.

THE EXCELLENCE OF SYRUP OF FIGS

is due not only to the originality and simplicity of the combination, but also to the care and skill with which it is manufactured by scientific processes known to the CALIFORNIA FIG SYRUP Co. only, and we wish to impress upon all the importance of purchasing the true and original remedy. As the genuine Syrup of Figs is manufactured by the CALIFORNIA FIG SYRUP Co. only, a knowledge of that fact will assist one in avoiding the worthless imitations manufactured by other parties. The high standing of the CALIFORNIA FIG SYRUP Co. with the medical profession, and the satisfaction which the genuine Syrup of Figs has given to millions of families, makes the name of the Company a guaranty of the excellence of its remedy. It is far in advance of all other laxatives, as it acts on the kidneys, liver and bowels without irritating or weakening them, and it does not gripe nor nauseate. In order to get its beneficial effects, please remember the name of the Company—

CALIFORNIA FIG SYRUP CO.

F. O. BURT,
Representative Carroll Co., Ark.
Little Rock, Ark., Feb. 2, 1899.

Deafness Cannot be Cured by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless it can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars; free.

WANTS ARMY BILL PASSED

President Tells Several Senators He Wants an Adequate Force to Meet the Situation.

HOUSE BILL MAY GET THROUGH SENATE.

Text of the Proposed New Copyright Provision in the Legislative Bill—Representative Underwood Has Introduced a Joint Resolution in the House to Promote Lieut. Hobson.

Washington, Feb. 11.—The president sent for several senators yesterday to confer with them about the army bill. As a result of these conferences its passage is now confidently predicted. The president gave the senators whom he consulted some information which convinced them that the extension of the present legislation providing for a regular army of 62,000 would fall far short of meeting the requirements of the situation. He informed them that all of the recruits enlisted in the regular army between the dates of May 10 and October 26 were given the option of discharge at the close of the war. If, therefore, provision were made for a maximum enlistment of 62,000 only, the getting out of a large number of the regulars upon the ratification of peace by Spain and the proper exchanges between the two governments, would leave the president with an inadequate force at his command for a time, at least, and this he will use every means in his power to prevent.

If the army bill as passed by the house is passed by the senate, the army can then be recruited up to 100,000, and the discharge of those now serving whom the government is obligated to release will occasion no inconvenience, as the president will still have a sufficient force at his command for all purposes. In view of existing conditions in the Philippines, and the unsettled state of affairs in Cuba the president said he was determined not to take the chances that would be involved in having an inadequate force at his command, even temporarily. He informed the senators that the senate would have to make its choice between the passage of the army bill and an extra session. When this intelligence reached the capitol there was at once a marked change in sentiment. Very few of the senators and scarcely any of the members of congress can bring themselves to look upon the prospect of an extra session with indifference.

It was announced yesterday afternoon, by senators in a position to know, that the army bill would be given precedence of some of the appropriation bills in the senate, and if it went down, the appropriation bills would have to go down with it, thus making an extra session inevitable. Senator Hawley, the chairman of the committee on military affairs, said yesterday afternoon, after an informal canvass of the situation, that he believed the bill would get through.

Proposed New Copyright Provision.
Washington, Feb. 11.—The following is the text of the copyright provision in the legislative bill:

That on and after July 1, 1899, no person shall be entitled to a copyright, unless the copies deposited with the librarian of congress, of such copyright, book or other article or the photograph deposited as work of the fine arts, shall be of such a substantial and permanent paper or substance and ink or impressions shall be according to such a standard as shall be from time to time approved by the said librarian.

The provision has been passed over for the present until other parts of the bill are passed upon. It has attracted considerable attention of publishers within the last few days, because of its possible effects.

Wants Richmond P. Hobson Promoted.
Washington, Feb. 11.—Representative Underwood, of Alabama, has introduced the following joint resolution:

That in recognition of the extraordinary heroism displayed by Richmond P. Hobson by running the Merrimack into the mouth of the harbor of Santiago on June 3, 1898, and dexterously sinking said vessel in the channel, the president is hereby authorized to transfer the said assistant naval constructor, Richmond P. Hobson, from the construction corps to the line of the United States navy and to promote him to such position therein as, by and with the consent of the senate, he may determine.

Miners' Strike in the Indian Territory.
Hartshorne, I. T., Feb. 11.—A strike of coal miners commenced yesterday in shaft No. 1 at this place, shaft No. 3 at Cowan and shaft No. 9 at Dow, all belonging to the Choctaw Coal company, involving from 600 to 700 men altogether. The cause is discharge of several miners for joining the newly-organized miners' organization. Whether Halleyley, Anderson, Krebs and Wilburton join the strike a few hours will tell. All branches of business are paralyzed in consequence.

Fitzsimmons and Jeffries Matched.
New York, Feb. 11.—Bob Fitzsimmons and Jim Jeffries signed articles to-day for a fight, some time between April 24 and May 26, before the club offering the largest purse. The fight is to be for 25 rounds, or to a finish if that can be arranged. Marquis of Queensberry rules are to govern, with the exception that there is to be no hitting in the clinches or in the breakaway.

Nebraska Balloting Drags Along.
Lincoln, Neb., Feb. 11.—There were no changes for senator on joint ballot to-day. This was the twentieth ballot, the greatest number ever cast in the state during a senatorial contest. There are indications that the republican members will get together soon in caucus to select a candidate upon whom all can unite.

Five Died in a Mine.
Auburn, Cal., Feb. 11.—Five men have been killed in the Big Dipper mine at Iowa hill by the breaking of a reservoir.

The Nebraska house adopted a resolution indorsing the votes of Senators Allen and Thurston on the peace treaty and declaring McKinley the greatest president since Lincoln.

MARKET REPORTS.

Devastation Threatens Webster Groves.
St. Louis, Feb. 11.—A telephone message from Webster Groves, the fashionable residence suburb of St. Louis, says a fire that has been raging there threatens to destroy the whole business section of the town. The Allen building and several adjoining stores have been destroyed and the flames are spreading, as no water can be secured by the firemen.

Missouri Town Sadly Afflicted.
Slater, Mo., Feb. 11.—W. F. Jeffries, a grocery salesman of Moberly, is circulating a petition here asking aid for the smallpox sufferers at Bosworth, Mo. He received a letter from Charles Lawrence, mayor of Bosworth, while at Glasgow, stating that the people of Bosworth were in a destitute condition.

Missouri River Jobbers Alarmed.
Omaha, Neb., Feb. 11.—The Missouri river jobbers are much disturbed because the meeting of the western railroad representatives at St. Louis, February 21, threatens to increase the minimum weight of carload shipments. The Jobbers' association will meet at Omaha, Monday, to take hostile action.

Kentucky's Executive Mansion Burned.
Frankfort, Ky., Feb. 11.—The governor's mansion was totally destroyed by fire at noon to-day. The firemen were so disabled by the intense cold, to which trouble was added frozen pipes and cutting off of the water supply. Most of Gov. Bradley's valuable personality was saved.

BE CURED OF GRIP.

The Wonderful Results Obtained in the Case of Supt. Davidson.

Now, what is the grip? Can it be avoided or prevented? And can it be cured?

Grip is characterized by a continued fever, by a tendency to inflammation of the membranes of the digestive and often the respiratory tracts, by pain in the muscles, and by debility.

The grip in individual cases varies from a slight indisposition to severe forms with grave symptoms—these variations depending wholly upon the health, age, temperament or nervous condition of the person. Those predisposed to rheumatism suffer great pain in the muscles; persons of nervous temperament become low spirited, often have hysteria, and, if not closely watched, have been known to commit suicide. Several cases of this sort have been reported this month in the newspapers. Headache is a constant symptom. The bowels are generally constipated. Whatever form the disease takes there is invariably extreme prostration. The danger to persons in previous healthful condition is slight.

It has been absolutely proven that there is one certain preventive of serious cases of grip; and that there is one remedy for persons suffering with it, or beginning to be convalescent from its attack.

The unexampled public demand for Paine's celery compound during the last two months

—and the proprietors of this remedy have never known so great a call for it—has been due to its use by thousands of people for whom it has been prescribed by intelligent physicians, to restore the patient's vitality, to purify the blood of the enervating poison, to restore the nervous system to healthy action and to strengthen the vital organs.

A person will continue to suffer from the evil effects of grip for many months unless he attacks the disease by getting rid of the unnatural, unhealthy poisons in the system, supplying the body with new blood arousing the healthful action of the kidneys, liver and digestive organs, and nourishing and up building the over-exerted and debilitated nervous system. All this and just this Paine's celery compound will do. In the multitude of cases where it has been used, it has never failed.

A case well known in Chicago is cited. Mr. Frank E. Davidson, who is one of the most brilliant and best known engineers in the world, had just finished the plans for the great intercepting sewer system of Chicago, which is to divert the entire sewerage of the city from Lake Michigan, through the famous Chicago drainage canal, and down the Mississippi. Superintendent Davidson had worked for months on this scheme. He was well nigh exhausted and took to his bed with an attack of the grip.

I have fresh horse-radish, grated as you wait. Send in your orders. Phone No. 6. S. L. Field.

I am handling very choice home cured hams, tender, juicy and sweet. S. L. Field.

There is nothing mysterious in the wonderful cures effected by Dr. Sawyer's Wild Cherry and Tar. You get the benefit of eminent physician's prescription for all throat and lung diseases.

Dr. Sawyer's Little Wide Awake Pills give purity of body and vigor of thought by perfectly regulating the bowels, and cure biliousness, inactive liver and constipation.

After awhile the disease not having left him, he was advised to try Paine's celery compound. He was soon back at his office in the department of public works, a well man, and forthwith wrote a letter to the proprietors of the remedy, in which he says:

"I had been told by friends of the wonderful results obtained by them from the use of Paine's celery compound. After my severe attack of the grip I determined to try it. I have already found that my friends' reports were not at all exaggerated, and I wish to join most cheerfully with them in recommending the remedy to others."

Hundreds of grateful letters have been written to the proprietors of Paine's celery compound since the appearance of grip this year, telling of the perfect recoveries it has effected. The letters come from men and women of many conditions. Few persons are so poor they cannot afford to have this great remedy constantly in the house, and none are so prosperous for their health's sake they can afford to be without it. When so many men and women whose words carry the utmost weight in the communities in which they live testify as they do to the great benefit they have received from Paine's celery compound, there can be no hesitancy in trying it. A single trial is the test which is confidently invited.

Danger in Calcium Carbide.

Superintendent Murray of the
Bureau of Combustibles, has
made regulations governing the
transportation, storage and sale
of calcium carbide, which the
fireman declare to be a source of
danger in a burning building,
because when water reaches in
acetylene gas is given off. A
number of stores keep it for use
in bicycle lamps. Hereafter, in
transit or on storage, it must be
enclosed in hermetically sealed
iron receptacles marked "Dang-
erous, if not kept dry." No pack-
age may contain more than 100
pounds. It must be stored in
isolated buildings that are fire
proof and waterproof. No arti-
ficial light or heat will be per-
mitted in the building where it is
stored. Not more than twenty
pounds, in bulk or in cartridges,
may be kept in any store or fac-
tory and this must be in a fire-
proof safe or vault above the
street grade and it must be kept
six inches above the floor.

The manufacture, transpor-
tation, storage, sale or use of
liquefied acetylene is absolutely
prohibited within the limits of
this city.—N. Y. Sun.

TALE OF WOE.

Committee Listens to Grief-
ance of Christ Church.

IT ASKS FOR RECOGNITION.

The Story of Its Trouble With
Dr. James Inquired Into.
A Decision Soon.

Bishop Brown, of the diocese
of Arkansas, having received a
request from Christ Episcopal
church, of this city, for recogni-
zation, sent a special committee
here this week to investigate.
This committee, which consisted
of Bishop Edward Altwill, of the
diocese of Missouri, Major H. H.
Harding of Carthage, and Rev.
W. S. Townbridge, of Spring-
field, met representatives of St.
James and Christ churches on
Thursday evening, when a good
deal of time was spent in listen-
ing to the grievances presented.

The members of Christ church
withdrew from St. James church
about 8 years ago. In presenting
their claim for recognition as a
church, to this committee they
stated that there was no griev-
ance against the members of St.
James church and that it was the
"withering influence" and ac-
tions of Dr. James, the pastor,
that caused them to withdraw.
Dr. Ellis, J. C. Cunningham and
Judge Linbarger spoke for Christ
church, the other side being re-
presented by Dr. James, Mr. Sech-
ler and C. D. James, who op-
posed recognition on the ground
that the parish was small and
should not be divided. There was
considerable feeling displayed
during the investigation.

It is expected the committee's
report will be received in a few
days.

A Word to the Wise is Sufficient.
Ely's Cream Balm has complet-
ely cured of catarrh when everything
else failed.—Alfred W. Stevens, Cald-
well, Ohio.

Ely's Cream Balm works like a
charm; it has cured me of the most ob-
stinate case of cold in the head; I
would not be without it.—Fredrick
Fries, 283 Hart St., Brooklyn, N. Y.
A 10c trial size or the 50c size of
Ely's Cream Balm will be mailed.
Kept by druggists. Ely Brothers,
56 Warren St., N. Y.

I have some very fine Cala-
fornia extracted honey. S. L.

PERSONAL MENTION.

Dr. C. B. Rutherford, of Peru,
Ind., came in today for the pur-
pose of enjoying our summer
breezes.

C. W. Wooden arrived from
Oklahoma Territory to visit a son
who is sick.

Phillip Bean, from Smith
county, Kans., is among the late
arrivals.

T. C. Moore, of Holly Springs,
Miss., is in the city for a few days
visit with friends.

The Cold Wave.

The thermometer at Porch &
Crook's registered 7 degrees be-
low zero at 4 o'clock this after-
noon.

Church Services.

There will be no services at
St. James Episcopal church to-
morrow, the pastor being ill.

There will be the usual serv-
ices at Christ Church.

The Presbyterian church will
have services as usual.

The morning subject at the
First Baptist church will be: "A
Man Sent from God." A collec-
tion will be taken for minister-
ial education. Subject at night:
"Four Kinds of Soil."

At the Pine street Methodist
church morning theme will be:
"God's Call to the Zon." Usual
night services. The church will
be well warmed.

At the Christian church the
morning subject will be: "Trial
of Abraham's Faith." Subject
at night: "Sowing and Reaping."

Fowler sells 25 lbs. flour 30
cents.

Field has choice creamery but-
ter. Try it.

Big ills, as well as little ills of the
kidneys, cannot resist the curative
power of Dr. Sawyer's Ukatine.

A. N. Matthews has county and
city scrip to sell.

Fowler is over stocked on
canned tomatoes.

Frequently accidents occur in the
household, which cause burns, cuts,
sprains, and bruises. For use in such
cases Ballard's Snow Liniment has
for many years been the constant fa-
vorite family remedy. Price 25 cts. and
50 cts. For sale by Porch & Crook.

COURT NEWS.

Meador Brothers Win in the
\$2,000 Damage Suit.

BYRON PIERCE INDICTED.

Jury Fails to Find Count Against
Frank Ruark Charged with
Burning a Barn.

In the circuit court today the
grand jury returned three
more indictments, two of which
are suppressed for service. The
third is against Byron Pierce,
who is indicted for perjury, in
not testifying to the truth and
nothing but the truth before that
August body.

The case of Joe Fowler against
W. J. and James Meador, in
which \$2,000 was asked, went to
the jury last night, which re-
turned a verdict finding for de-
fendant, dividing the costs be-
tween both parties to the suit.

The grand jury made a report
this afternoon, refusing to indict
Frank Ruark, who was held on
the charge of burning the barn
of A. L. Howerton in Kings
river township, and also a col-
ored woman named Moss, who was
held for slander. The cases
against both were dismissed.

The court has been occupied
today in the trial of the now fa-
mous calf case of R. G. Thomas
vs. R. C. Huffman. The plaintiff
seeks to recover from defendant
\$15, for the loss of a calf, which
fell over a cliff and was killed.
In the Justice's court the case
was decided for defendant and
was appealed by plaintiff. The
court's costs of the justice of the
peace are \$44, and now those of
the circuit court must be added,
as well as attorneys fees, making
the calf pretty expensive for the
man who loses. C. D. James
represents Mr. Thomas and O.
W. Watkins the defendant.

Instructions given in artem-
brodery and Venetian lace work.

One Large Scar

Is All That Remains of Great
Scrofula Sores

Neighbors Could Not Bear to Look
Upon Her—A Grand, Complete
Cure by Hood's Sarsaparilla
After Others Failed.

"I was taken with neuralgia in my
head and eyes. Not long after this, a
scrofula sore appeared on my left cheek,
extending from my upper lip to my eye.
Other sores came on my neck and on my
right arm and one of my limbs. They
were very troublesome and painful and
soon became great running sores. My
face looked so bad that some of my
neighbors could not bear to look at me
and advised me to wear a bandage, but I
feared this would irritate the sore and
make it worse. So I

Could Not Hide the Sores.

My niece, who was familiar with a case
similar to mine, which had been cured by
Hood's Sarsaparilla, urged me to try it.
Finally I was persuaded to do so, and in
a short time I saw it was helping me.
The sores began to heal and the neural-
gia in my head was better. In a few
months the sores on my arms and limbs
all healed; those on my neck gradually
disappeared and now they are all gone.
I have never had any symptom of scrofula
since. One large scar on my right arm is
all the sign that remains of my terrible
affliction. The neuralgia is also cured."

Mrs. J. M. HATCH, Etta, New Hampshire.

parilla
Is the best—in fact the One True Blood Purifier.

Hood's Pills are the only pills to take
with Hood's Sarsaparilla.

BLIND BOONE.

This Wonderful Concert Company
Coming.

Concerning the Blind Boone
company, which appears at the
opera house next Thursday even-
ing, the St. Louis Globe Demo-
crat says:

In the character of the perform-
ance and large attendance the
concert at central Christian
church last night by the Blind
Boone concert company was a
pronounced success. Blind Boone
is the negro musical prodigy, and
differs from Blind Tom in that,
except his blindness, he has the
use of all his faculties, including
the mental. His power over the
piano forte is remarkable, and his
whole muscular and nervous sys-
tem seems set to music. His imi-
tation of various instruments and
the incoming train was perfect.
Miss Stella May also rendered
several darkey songs artistically

The Modern Way
Commends itself to the well-informed
to do pleasantly and effectually what
was formerly done in the crudest
manner and disagreeably as well.
To cleanse the system and break up
colds, headaches and fevers without
unpleasant after effects, use the de-
lightful liquid laxative remedy, Syrup
of Figs. Made by California Fig Syr-
up Co.

Are you restless at night and har-
assed by a bad cough? Use Ballard's
Horehound Syrup, it will secure you
sound sleep and effect a prompt and
radical cure. Price 25 cents and 50
cents. For sale by Porch & Crook.
