

# The Daily Times-Echo

CONSOLIDATION OF TIMES, Established 1881.  
ECHO, Established 1880.

EUREKA SPRINGS, ARKANSAS, MONDAY EVENING, DECEMBER 31, 1906.

VOL. XXIV, No. 277.

## Improvements at the Depot

H. E. Littleton has the contract for improving the waiting room and making other changes at the depot.

The old waiting room for colored people is to be converted into a dining room—an adjunct to the lunch room, in which first class meals are to be served.

The colored people are to be provided for by making a waiting room of the present vestibule.

The waiting room is to be enlarged, and another window cut between this room and the ticket office, so that two men may sell tickets during the busy seasons.

These changes are only to meet the present needs, but are not to be of a permanent nature, for the company will build a fine new depot as soon as practicable, to be completed at a date not later than two years hence. It is the intention to make this station one worthy of the city—a modern, commodious building of brick and stone with sufficient room for the general offices above. Such a building would have been built ere this had not property complications arisen that have delayed the matter. Now that the company is busy with extensions northwest and southeast, the work of local permanent improvements will not be taken up just at present.

All Eureka Springs will rejoice at the prospect of a new depot building. The accommodations will be bettered by the temporary improvements to be made at once. Electric lights have recently been placed in the freight depot, the round house and the carpenter and paint shops.

## Citizens Honor Ex-Senator Butt

There was a large attendance at the reception given by the ladies to ex-Senator Butt on Saturday evening. It was an informal affair, and was simply intended as an expression of good will to Mr. Butt and to give an opportunity for leave-taking and to cheer him in his hour of trial. The resolutions here printed were heartily endorsed, and each person present who had not previously signed, entered their names on the petition praying for a pardon for the ex-senator. The ladies served nice refreshments to all who attended the reception.

The following resolutions, written by Mrs. Chas. E. Davis, found ready signers among the ladies present:

In view of the dire calamity that has befallen our brother, neighbor and fellow citizen, ex-Senator Butt, and believing that both charity and justice begin at home and should have their strongest expression from these, we, the ladies of Eureka Springs, most cheerfully subscribe to the following resolutions, as the honest conviction of our hearts:

Resolved, That during the earlier career in life of Senator Butt he was recognized by those who knew him best, as an honest, industrious and ambitious youth, and is later known as an exemplary citizen, who has repeatedly, and acceptably represented us in the state councils; as a beloved husband and father; as an honored man in his profession, and above all as a typical Christian gentleman;

Resolved, That since no person is infallible—and that all are susceptible to mistakes of either the head or heart, we feel that whatever the technicalities of the law or the character of the evidence might have been, upon which he was convicted, that the suffering he has endured, the trials through which he has passed, in connection with this unfortunate situation, have amply atoned for any error he may have made either by commission or association.

Sixty-one names were subscribed to these resolutions, and will be presented to Gov. Davis by Judge Maples, today, together with numerous petitions for Mr. Butt's pardon.

A South street man who has allowed his wife to frame his New Year resolutions has requested that she also place an order for wings.—Springfield Republican.

## Good Example

E. G. Garner sold to Jas. Shuman the north part of lot 7 on east side of Spring street, in block 5, for a consideration of \$700, through the Blair Abstract Company. Mr. Shuman contemplates having this lot levelled and he will beautify the same next summer by the planting of flowers and shrubbery. This lot contained an old coal box and other rubbish the removal of which by Mr. Shuman makes the lots look much more sightly. If more of our citizens would follow Mr. Shuman's lead and clean up their vacant lots it would be of great benefit to our city.

John Stillions is here shaking hands with old friends and looking after business matters. He says his stone quarries are enjoying a good business and that his family are well and happy.

## Observe New Year's Day

We hope the merchants and business men of the city will follow the good and established custom followed by the banks and government institutions and close their places tomorrow—New Year's Day. Both banks and the post-office will be closed and it is surely not more than right that all legal holidays should be observed.

All faithful employees as well as their employers deserve these days of rest, and as we have so few, compared with what many other countries have, it is surely only a patriotic duty that we should observe them.

The Times-Echo will not publish a paper on tomorrow.

The Times-Echo, 10 cents a week.

## Poor Remembered

Dr. Pearl Tatman made very successful affairs of the dinner and supper served Saturday for the benefit of the Maccabees, and everybody attending felt it was good to be there. A neat sum was added to the lodge treasury as a result of the day's labors. Yesterday a number of poor children were treated to good hot soup, and later in the day Dr. Tatman loaded her buggy with the good things left over and distributed these among a dozen or more poor families.

Rev. D. A. Ellis, of Jackson, Tenn., preached two splendid sermons at the First Baptist Church yesterday, good sized audiences being in attendance. Mr. Ellis is a young man of great earnestness and power, and has done a great work at Jackson.

## W. of W. Here In March

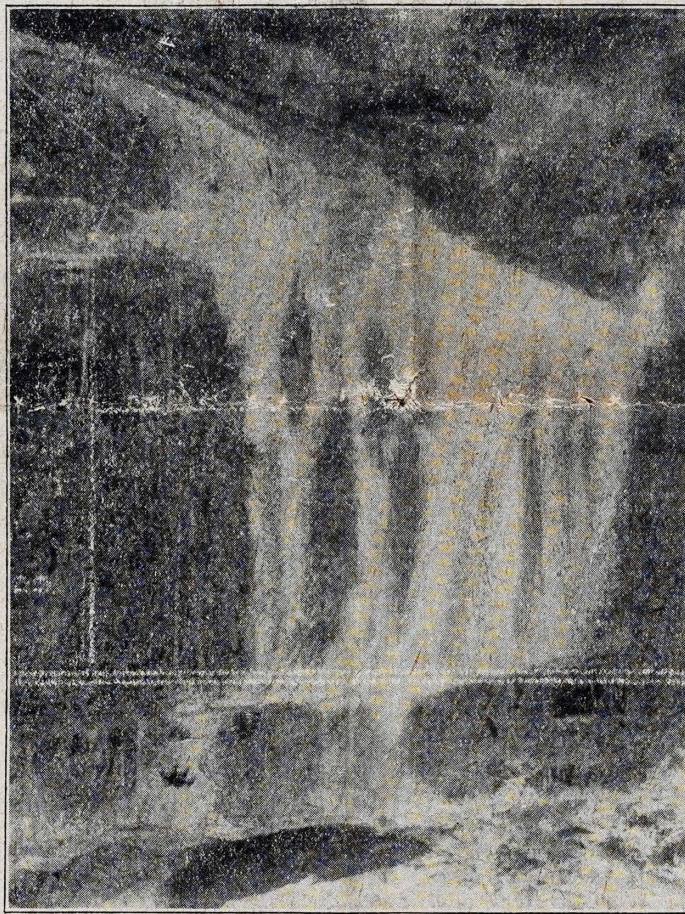

Forest Camp, No. 5, Woodmen of the World, will meet in regular session tonight and will initiate a class of ten into the order. At this meeting the committee composed of W. E. Lenon, Mayor of Little Rock; E. R. Ratterree, Jack Mitchell and Charles Hafer, appointed some time ago to arrange plans for sending the camp drill team to Eureka Springs, will report. It is the purpose of this committee to secure the Majestic Theatre for one week and the money thus made to be used for defraying the expenses of the team. The theatre will give a commission on each performance.—The Daily Arkansas Democrat of December 28, 1906

Crystal Camp No. 11, of this city have already appointed a committee on arrangements for the entertainment of the delegates from the various camps, which will meet here in March. There will be about one hundred and fifty camps represented and the delegates and their families will aggregate in number between 400 and 500 visitors.

The committee on arrangements consists of O. M. Clark, Chairman; M. A. Church, Dr. R. G. Floyd Chas. Perkins and Walter Brown.

## Beauty Spots around Eureka Springs

To be continued from day to day, as long as the immense stock of engravings owned by The Daily Times-Echo will prove interesting.

Dodd's Falls.

## A Ferry for White River

The necessity of a permanent and reliable means of crossing White river north of this city has been brought to our attention by parties who have to come here or go to a less desirable market.

A bridge at mouth of Leatherwood crossing would of course be a much more desirable thing than a ferry, but in the absence of a bridge, a good ferry ought to be provided. It would seem that this is to be obtained only by an association of interest, and a large portion of interest seems to be with our local business men if they are to reap their just portion of benefit from the section across White river that finds this city their most desirable market.

We put it up to the Commercial Club and the Retail Grocers Association to consider the advantages that they might gain by establishing such a ferry. Once established it would be self maintaining and the outlay on the start would probably involve not more than \$200.

Only a day or two ago, a man who now goes to Missouri points for most of his goods, and who really loves Arkansas told the reporter that he would have spent \$150 in this city if he had been able to come here.

For lack of means of crossing the river he was obliged to go to a less desirable market on the Missouri side. In this one instance, our merchants lost the profits on \$150 worth of merchandise, to say nothing of the marketable produce he might have exchanged.

He has many neighbors who are anxious to come here, but may not at many times on account of being unable to safely cross the river.

It will mean a small individual outlay if united action may be had in this matter and this paper would urge that this action be taken.

## Your Last Opportunity

Skating at the rink tomorrow afternoon and evening and then the rink will close for the season. Some needed repairs are to be made and so this will be your last opportunity to enjoy this sport this winter. The rink will open at 2 p. m. tomorrow.

M. A. Weslow expects to leave this afternoon for Monett, where he will close a deal for a \$15,000 theatre for the Southwest Amusement Construction Company. The stock was all taken up by individuals.

## Mining Company Organized

The owners of the Ward mine property, in Searcy county, have organized a stock company for the development of their mine, located one mile northwest of St. Joe, and within about 200 yards of the Missouri and North Arkansas railroad. The company is now organized with a \$50,000 capitalization, \$20,000 of which is paid in dollar for dollar. Boles & Boles, of this city, are largely interested in this property and through their efforts this arrangement has been perfected. They have enough ore on the dump to keep a mill working for several months, and by March 1st expect to have a mill in operation. So far as developed, the property shows a rich vein of zinc blend. It is the intention of the company to sink deep. The indications are that at a lower depth they will go into sheet ground.

Alfred H. Boles, of Perry, Okla., in company with W. M. Boles, went on the noon train to the mineral fields of Marion, Boone and Searcy counties.

## Rejoice With Us

As we total up and compare figures for 1905 against the figures for 1906 every department shows the most gratifying progress. Circulation and advertising, the two cardinal departments of every newspaper, have increased marvelously and we are still climbing—going right ahead, brother, and to all Eureka Springs we owe thanks. Our effort—no matter how hard—would avail nothing without the solid appreciation and patronage of Eureka Springs. We are going to keep the pace—it pays. So take The Times-Echo, Mr. Subscriber, and keep up with the news—it pays. And, Mr. Advertiser, keep your names and wares before the public by keeping both in the columns of Eureka Springs' home paper—it pays.

The Times-Echo will not be issued tomorrow as it is a legal holiday.

## Meeting Place of Club Changed

It has always been a great pleasure to Mr. and Mrs. Barnett to entertain the Current Fiction Club at Rosecroft, but Mrs. Barnett has been on the sick list recently and could not get the "Good Greenwood" ready. Mrs. LaForce has offered her beautiful home and Misses Laura Willis and Edyth Volner of the Chafing Dish Club will assist Mrs. Barnett in entertaining. Book Clubbers will please take notice.

Mrs. Blanche Klock, President.

The Idle Hour Club entertained their husbands on Saturday evening at supper at the Basin Park hotel, after which a short session of card playing was indulged in. Mrs. Vincent won first prize for the ladies and Mrs. Lauderback second. Theo Hawley won the gentleman's first prize and Col. C. D. James second. After the close of the game those present adjourned in a body to attend the reception to F. O. Butt.

# Something about "The Gem City of the Ozarks," the All-the-Year Resort

## What Physicians Have Said.

Dr. Jacobs, leading dentist of Henry County, Ill., and a gentleman of more than ordinary discernment, education and professional ability, says: "I wish the world could know the value of the waters of Eureka Springs as I do."

"Many busy lives that are like the torrent rushing will find in this cool and quiet retreat the required medicament for their overstrained nerves. In fact, disease, in all its myriad forms, finds here its most uncompromising foe."—Dr. M. R. Regan.

"The climate, pure air, and other surrounding conditions are, of themselves sufficient to cure malaria without the use of this water, but the water and these conditions combined will eradicate malaria from the system quicker than any remedy or locality that I ever heard of."—Dr. J. D. Jordan.

"In conclusion, I can say to the members of the American Health Resort Association, the medical profession in general, and to the invalid public, that as a health resort I believe Eureka Springs is destined to take a most prominent place."—A. J. McKay, M. D., in American Journal of Health and Climatology, Chicago.

"When Eureka Springs is as well known as she deserves to be, the liberal capacities of her hotels will be taxed to care for the invalids who seek the beneficial effects of a moderate altitude, mild climate and pure waters, without the necessity of a long journey."—George C. Mosher, M. D., Kansas City.

"Our climate is bracing throughout the entire year. As a general rule our winters are almost ideal. The Arkansas sun being warm all winter, the greatest invalid needs to be housed only a few days at a time. The scenery, surpassingly fine in summer, loses less of its beauty in winter than one would think. The dark green of the native pine and cedar forms a delightful contrast with the brown autumnal wood, and with the bright sun and clear sky characteristic of this region render it a cheerful place for the sick or convalescent."—Dr. M. R. Regan.

The Ozark air is not burdened with the bacteria that ever floats around the immense hospitals of the great cities and malarial districts. It is pure and its volume sufficient to aid in cleansing the system, and where surgery is required in treatment, the Ozark air is a tonic and bracer that enables the physicians to effect a larger per cent of successful operations than are recorded elsewhere. The perfect drainage, pure air and pure water form a combination that are especially inviting to the surgeon who has a difficult case.

The Ozarks are only one night's ride from St. Louis, Kansas City, Dallas, Memphis, Oklahoma City and Wichita.

## The Waters, the Climate and Other Points.

The Eureka Springs water has a soft, agreeable taste, pleasant to the most delicate palate and soothing to the mucous membrane of the stomach and intestines. It is satisfying to thirst, cooling and invigorating to the system, and can be used in any quantity—the more the better.

It is the greatest solvent in nature. It is the principal factor in healthy digestion, assimilation and excretion. The Eureka Springs water is the clearest and purest of all natural spring waters. Its life, sparkle and crystal brightness are attested by chemical analysis, which shows it to be as nearly free from foreign constituents as a natural water can be. Each gallon of 231 cubic inches contains the following:

Chloride sodium	0.19 grs.
Sulphate soda	0.09 "
Bi-carbonate soda	0.15 "
Sulphate potash	0.13 "
Bi-carbonate lime	4.43 "
Bi-carbonate magnesia	0.47 "
Iron and alumina	0.08 "
Silica	0.31 "
Total	5.82 "
Free ammonia	0.14 "
Albuminoid ammonia	0.07 "
Parts in millions.	

The gaseous contents are 28.52 cubic inches to each gallon of water. It is worthy of note that the gaseous contents of the Eureka Springs water are remarkable from the fact that there is a large proportion of nitrogen. This large proportion of nitrogen is proof of a proportionately large amount of oxygen.

The Eureka Springs water is not mineral water. Mineral water is drugged water, and as such is spoiled for all except the very few whose systems may need the drug it is said to contain. The constant use of a water containing mineral in any quantity is sure to result in harm, for it defeats the very purpose for which water is taken, viz.: to act as a solvent on the poisons within the tissues of the body.

The Eureka Springs water is an energetic solvent of uric acid and gravelly accumulations—the attested cause of gouty and rheumatic diseases. The activity of the kidneys and bowels is markedly increased by its use, and the waste products of the body eliminated, thus preventing or curing the chronic disease originating in the retention of poisons within the tissues.

The numerous diseases affecting the stomach, liver, kidneys and bladder are invariably benefited, and often cured by the persistent use of the Eureka Springs water. Immediate relief from the more distressing symptoms attending these diseases can be confidently expected from the beginning.

In kidney troubles the waters are very effective. The most obstinate and chronic cases have yielded to them, and even the supposedly incurable Bright's disease has been conquered.

Quick recovery is common in catarrh of the bladder and in the various inflammatory diseases of this organ.

Rheumatism, even in its chronic forms, yields readily to the free use of the waters, relief from pain being almost instantaneous.

Sufferers from liver complaints always obtain benefit. Cases that had progressed to the point of structural change in liver tissues have found a cure in the Eureka Springs water. Dyspepsia, indigestion, and the many chronic ailments of the stomach, though of long standing, are relieved. Ulcer of the stomach has in many instances been cured.

The average temperature in Eureka Springs during the four seasons of the year is as follows:

March, April and May, 61 degrees.  
June, July and August, 74 degrees.  
September, October and November, 48 degrees.  
December, January and February, 43 degrees.

Compare those with your home weather.

The average number of clear days per year at the principal points in the United States is as follows:  
New York, 100 clear days.  
Chicago, 108 clear days.  
Los Angeles, 171 clear days.  
Eureka Springs, 209 clear days.

Nearly every day of the winter season outdoor recreation may be enjoyed. There are miles of mountain drives and bridle paths and good country roads, beautiful mountain scenery and pine forests. The livery service is complete in driving and saddle horses.

"The greatest tonic of all is water—pure, cold water—water unadulterated with minerals or drugs of any sort."

## What Prominent People Say.

One of Eureka's visitors was heard to remark that "God might have made more beautiful cities and more charming people—but He never did."

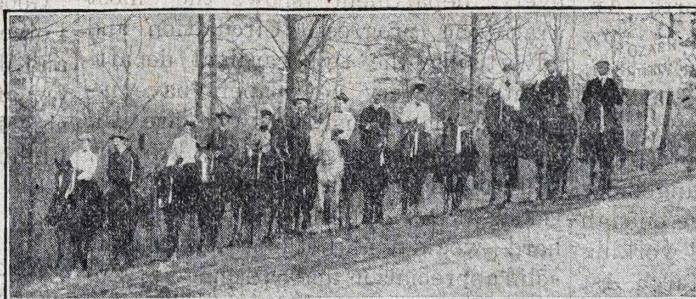

"There are few places in the whole United States more desirable, owing to its natural attractions, picturesqueness and environments. It is a watering place, delightful and unique, with a reputation for cures that is astonishing."—Judge Thomas Fitch.

A. A. Eddy, of St. Louis, of the well-known firm of Eddy & Eddy, manufacturers of grocers' sundries, says: "The purity of the waters, delightful climate, and fascinating scenery all combine to make it a most delightful resort for those who need recuperation and relaxation, as well as those who are seeking pleasure or rest."

"Those who seek a quiet retreat in some shady nook where they may converse with the fairy elves who dwell in flowers, or listen to the murmur of the brook as it tells of all the beauties, the various pictures mirrored in its laughing face, or the wonders it has met on its way, may find it in the woods that surround Eureka."—Miss Gertrude Durey.

United States Senator Wm. Warner and wife paid their first visit to Eureka Springs. The Senator expressed himself as being both surprised and delighted with Eureka Springs, and said that he had no idea there was so charming a resort in this section of the country, and only a few hours' ride from Kansas City. He believes there is a great future for Eureka Springs. Mrs. Warner and daughter will spend the greater portion of the season at our resort, guests at the Crescent Hotel.

Geo. W. Moser, president of the Moser Paper Company, of Chicago, and wife, were among the early visitors to the resort this season, and spent several weeks at the Crescent Hotel before returning to their home in Oak Park, Ill. Both Mr. and Mrs. Moser are pleased with Eureka Springs, and spent a great portion of their time while here visiting the many points of interest about the resort, and think it is the most charming place they ever visited. They took home with them a glowing estimation of our beautiful resort to repeat to their host of friends in that section. Mr. Moser is a most jovial gentleman, the picture and personification of health, and while here was constantly on the go, and set the pace for a number of the younger guests at the Crescent; still he gained eight pounds during his stay. He was so charmed with the resort that he gave up a fishing jaunt on the northern lakes which was to have occupied a portion of the time of his vacation, and remained here. Before departing, Mr. and Mrs. Moser announced their intention to return next October and remain several weeks.

A Winter Day Horsback Party.

Further Particulars obtained by addressing Secretary Commercial Club, Eureka Springs, Ark.

# Something of Interest To Strangers

## THIS FOR A WELL TO DO FARMER

No 6 J. \$5,000—220 acres 6 miles east of city on Kings River, being the land purchased by a traveling salesman for his brother. His brother's wife, who was raised in the city, is dissatisfied with farm life, hence this tract will be sold at a sacrifice. 140 acres bottom land in cultivation, which will raise 60 bushels corn per acre; 30 acres in clover and timothy; 40 acres virgin timber on the tract, and there is not to exceed 10 acres of waste land. This is rich, fertile land and will produce all kinds of crops in abundance. There is a small orchard sufficient for family; fences all in first class repair; 2-story 8-room frame house and good barn; 2 wells soft water and one permanent spring. If you are looking for an A1 farm you cannot get a better bargain.

**MAKE 100 PER CENT ON YOUR MONEY.**—We have timber, fruit and mineral lands at various prices.

**WE** wish to call your especial attention to the fact and have you remember that in this section of the State of Arkansas we are in the Ozark Mountains, and that it is a rough mountainous country—not prairie—that the mountains are interspersed with valley and ridge farms, the products of which bring a better price than the products of farms in a section where all the land is tillable; that while much of our land is gravel formation it is very rich and productive; land is cheap and this is an ideal country for the man with small means. Energy properly expended will net a man more here than on five times the amount of land in Illinois, Iowa, Ohio or Missouri. When you come here do not expect to see a prairie country; but be prepared to see mountains, hill, rocks, gravel, rich soil, pure water, good climate, and a healthful country—a place where the cultivation of berries, grapes, garden truck, peaches, apples, pears, cherries, plums and all kinds of grasses cannot be excelled, and

**BUY THIS ON WHICH TO RAISE GOAT, SHEEP, ETC.**  
No. 5 A. \$5,500—100 acres unimproved, six miles south of city, on which there is a large amount of white and black oak saw timber. This is a rough mountain tract, there only being about 200 acres of good, tillable land, the balance being ideal for the culture of grapes, berries, fruits and h. ass. This would make a fine stock farm, being especially adapted to sheep, goats and hogs. The tract is well watered by a permanent spring of soft water. There are strong indications of lead and zinc on this tract. Will exchange clear for clean. Make a close study of Northwest Arkansas and remember we predict that land will advance 100 per cent within eighteen months.

**FOR THE MINER.**—No 8 B. \$1,200—40 acres in Marion county, Ark., situated in the Sugar Orchard mining district, and surrounded by zinc mines.

## Where Land will Quadruple in Value Within Three Years

### LAND INVESTMENTS

A bargain out of which the lame, blind and invalid can make money—No. 1 B. \$1,000—160 acres unimproved timber land, timber consists of oak and pine, some of which is saw timber, 40 acres tillable, balance rough mountain land good only for fruits, berries, grapes and grass; being well watered by large spring of pure, cold, soft water this tract would make a good dairy or stock farm. On this land is a very large onyx cave, which is visited each year by hundreds of tourists and by the expenditure of \$250 in improving cave and building tower on the mountain, from which there is a beautiful view, one could make quite a nice sum of money by charging an admission fee to same. All hotels in the city would be glad to send their guests out on pleasure trips. To right man we will sell this land on time and give him a chance to pay for it out of the proceeds. There are indications of lead and zinc on this land and many think the clay in the cave contains aluminum.

### FOR THE MAN WITH MODERATE MEANS

No. 2 D. \$600—160 acres 5 miles northeast of city, adjoining No. 1; 15 acres in cultivation, balance rough mountain land, good for fruit, berries, grapes and pasturage, fair 3 room house, small barn, very little timber, within 1 mile railroad station, watered by good spring.

See us about your land titles.

### THIS FOR THE FRUIT GROWER

No. 3 S. \$1,000—43 acres 4 miles northeast of city, adjoins Nos. 1 and 2, 10 acres fenced, all of which is in fruit and berries, 500 bearing assorted fruit trees, 2½ acres in straw and other berries, good 4 room frame house, barn, granary, fruit house, cistern, good spring, located within 100 yards of school and church. Like other lands in this section the land not in fruit is rough mountain land, but well adapted to the culture of grapes, fruits, berries and grass. Will exchange for Eureka Springs property. Before buying have an abstract of title prepared by us.

### HERE IS TO THE TRUCK GARDENER

No. 4 K. \$1,000—40 acres 3 miles southeast of the city, 15 acres in cultivation, balance rough land covered with timber, but no saw timber, new fence, 4 room frame house, good new barn, poultry house, green house 12x70 feet, spring of pure, cold, soft water, three-quarters mile to school and church, all varieties of fruit. We will exchange this tract for residence in Springfield, Mo., and pay some cash difference.

### A LITTLE INVESTMENT FOR SPECULATION

No. 7 B. \$400—40 acres timber land, 3 miles west of city, timber consists of oak saw timber, and we believe, owing to the scarcity of fire wood in this city, that this tract is well worth the price asked for timber alone. The land is rough, but is good for fruit, vegetables, berries, grapes and poultry. There are indications of zinc and lead.

**JUST FOR A HOME.**—No. 9 B. \$200—20 acres 2 miles east of city, mostly level, good spring, no improvements.

**THE BLAIR ABSTRACT AND REALTY COMPANY, Eureka Springs, Ark.**

### Shiver Nature's Remedy.

At the football game the young girl, despite her sable stole, shivered. "That shiver," said her companion, a physician, "is nature's method of warning you. It is nature's preventive remedy for a cold.

"You see the shiver is an involuntary rhythmical contraction of the muscles, and there is nothing like a contraction of the muscles for raising the temperature of the body.

"Thus when you shiver nature is putting you through a little course of exercise to warm you up, so that you won't take a cold or a dose of rheumatism or an attack of pneumonia. When nature shakes you up in this kindly way it is your duty to help her, out by moving briskly about for a while, thus making absolutely sure your immunity from illness."

## Stockholders Notice

Notice is hereby given that the annual meeting of the stockholders of the Blocksom Mercantile Company, will be held at the office of the Company on Wednesday, January 23rd, 1907, at 2 o'clock p. m., for the purpose of the election of three directors and such other officers as provided by the articles of incorporation and the by-laws of the company and to transact such other business as may lawfully come before the meeting.

B. H. Blocksom, Pres.

W. R. Blocksom, Sec.-Treas.

December 24, 1906.

### MOSLEM MANNERS AT TABLE.

Religion and Good Behavior Appropriately Mixed.

The rules set down by old Moslem precept as to how to behave religiously and appropriately at meals are interesting, though whether they are devoutly complied with in times of festival is doubtful. Here are some examples: Wash your hands and mouth before eating. When eating never put one leg upon the other, nor put your elbows upon the table, as this hinders a good digestion. Never be a slave to your repast, and never touch any meal if you are hungry. Be ever content with what you find before you, and never give yourself great pains in preparing choice dishes. Be always, if possible, at the table in company with friends, as the prophet never partook of his meals alone. Always begin and end your meals with thanksgiving to Allah. Always eat with your right hand, and swallow, before and after food, a little salt. It shows good upbringing and is pleasing to Allah ever to put into the mouth only small morsels and never to make any observations upon the defective qualities of dishes. Never cut bread with a knife, but, as the prophet did, break it. Never choose the fruit offered, but take any at hazard. Never wipe your fingers with bread. Avoid blowing on a hot dish, but wait until it gets cool. Eat dates, apricots and other similar fruit one by one, remembering that in eating them thus the unity of Allah. Avoid at the table drinking much water. Your meal finished, use attentively the toothpick, gather up the crumbs, and wash again your hands and mouth. Lastly, render thanks to Allah.

**You will save money by  
INSURING YOUR PROPERTY**

**.. with W. J. O'Connor ..**

## Change of Trains

Effective December 1st, trains No. 14 leaving Eureka Springs at 4:35 a. m. for Seligman and points South on the Frisco and No. 5, arriving at Eureka Springs from Seligman at 7:15 a. m. after connecting with Frisco train No. 5, from St. Louis, are annulled.

Passengers for points South on the Frisco will leave Eureka Springs at 8:25 a. m. and 5:05 p. m. Passengers arriving at Seligman on Frisco train No. 5, will arrive at Eureka Springs on No. 11 at 11:59 a. m.

### THIS IS WORTH REMEMBERING

Whenever you have a cold or cough, just remember that Foley's Honey and Tar will cure it. Do not risk your health by taking any but the genuine. It is in a yellow package. H. T. PENDERGRASS, Druggist.

## Palace Cafe

Service to Order, a la Carte.

In the Palace a meal is served any time during the day, cooked to order. The prices are moderate and a meal can be selected to cost anywhere from 25 cents up. This, as against the regular service, where an arbitrary charge of one price is made and the cooking done without regard to what the individual taste of the patron might be.

### DANGER IN ASKING ADVICE.

When you have a cough or cold do not ask some one what is good for it, as there is danger in taking some unknown preparation. Foley's Honey and Tar cures coughs, colds, and prevents pneumonia. The genuine is in a yellow package. Refuse substitutes. H. T. Pendergrass.

Mrs. M. Belding says her friends evidently assume that since she is growing old, she is likewise becoming childish, for only children receive as many Christmas presents as have come to her. However, these remembrances naturally make her happy.

## Change Needed

In the matter of the investigation of the International Harvester Company by the Inter-State Commerce Commission, it is brought to mind how ineffective is the legislation of individual states in dealing with trusts. This trust virtually owns the harvester machinery manufacturing plants of the nation. According to the law of Tennessee this company is at liberty to do all the business it may in that state, but according to a recent law enacted by the legislature of Arkansas the company could no longer maintain an agency here.

It is true that in chasing the Harvester Company out of the state the company got what it deserves, but instead of paying a license to conduct business here, it goes to a point just outside the border and opens an immense agency in Memphis, Tenn., and continues to do business in Arkansas. It no longer pays a license in this state.

There is no law to prevent them doing this. They establish this agency. There are many farmers in Arkansas who must have their line of machinery or go back to primitive methods. They require new machines, and repairs for those they have previously purchased. They have therefore the trouble of ordering through their local dealer from Memphis, or some other out of state point, or taking the trouble to do this themselves. The local dealer has absolutely to purchase outright his machinery from this company now instead of becoming its agent as

formerly. This necessitates the investment of capital which will in many cases work a hardship on the local merchant as well as on the purchaser. The above is stated with the idea of placing in a business light the matter as it now stands.

Congress is the power to handle these matters instead of the state.

States rights in such legislation as that which has chased this company out of the state, is worse than an empty phrase. It works to the harm of all concerned, and there are few exceptions in other matters. Trusts, railroads, steamboat transportation, every item of inter-state commerce must finally come under national control as in the policy outlined by the present administration.

Nearly every effort made by individual states to deal with this question has worked great hardships upon both the consumer and the dealer. It complicates matters without end. It gives occasion to boddlers and grafters to work their trade and finally results in leaving the question to be dealt with by national legislation. The investigation of the Harvester Trust, as of other trusts, is being dealt with by the Inter-State Commerce Commission, and the same energy in this investigation, as in that of the prosecution of other trusts may be expected.

The sooner the present state law placing such restrictions upon this company, and others who may pursue the same course as they have taken, is removed, the better for Arkansas. Let the national government deal with the national trusts, and let the state attend strictly to the state business, and rid itself of grafters and boddlers before getting so uneasy about extraneous matters.

The Ben Davis leads all other United States apples in the European markets this fall, as the following foreign reports show: "On European markets American apples are selling well. Ozark Ben Davis exported from Springfield, Mo., have been selling at top prices for all varieties, except Canadian Kings." Another report says: "The only variety which has sold as well on the Liverpool market as the western Ben Davis has been strictly fancy Kings from Canada."—Rogers Republican.

Benton county, Arkansas, which, as is well known, is the largest apple producing county in the United States, produced a crop of a million and a half bushels this year. Only one crop has exceeded this, that of 1901. A large part of the crop was evaporated and made into cider. The price of the apples shipped averaged less than a dollar a barrel—Practical Fruit Grower.

Now doth the time of year approach when you should get out those broken resolutions and patch them together for some more target practice.

These new fangled talking machines possess one advantage to recommend them. They are cheaper to feed than your wife.

The proper study of mankind is woman.

## B. P. O. E. Ball

On New Year's eve Lodge No. 1042, Benevolent and Protective Order of Elks, will give a dance in the Wadsworth-Floyd hall. Married Elks and their families and unmarried Elks, are expected, the latter being permitted to bring a lady guest. Visiting Elks, with, or without ladies, are welcome indeed.

C. D. James, Exalted Ruler,  
M. D. Jordan, Secretary.

## READY TO TAKE NOTES.

Cruel Husband Had Stenographer to Record Wife's Remarks.

Frederic Irland, at the last convention of the National Association of Stenographers at Atlantic City, said of a somewhat harsh rebuke that one stenographer had administered to another:

"That rebuke was a little too cruel, was it not? It reminds me of the cruelty of a Washington man—a piece of cruelty wherein stenography played an unwitting part.

"As this man came to bed one night his wife said to him:

"Has the stranger gone; I didn't hear him."

"Oh, no, dear. He hasn't gone," the husband replied. "I have instructed the maid to let him out in three or four hours."

"The wife looked amazed and stupefied.

"What—why—who on earth is he, anyway?" she stammered.

"My dear," said the husband, quietly, "he is a shorthand reporter. You see, I nearly always forget what you say to me during your discourse from 11 till two and sometimes I go to sleep while you're talking. So I thought I'd have your lecture written out tonight and study it at my leisure. The young man is all ready, the door is open so that he can hear you, and you may begin as soon as you like."

## Sportsman's Paradise.

Timbuctoo is being proclaimed to the world as a Nimrod's paradise. Recently a small party of sportsmen bagged five elephants in the Goune district. It is declared that in more than one district of 18 miles square more than 200 head of elephant may be found.

A real live, hustling newspaper for only one dollar per year—The Times.

## Money to Burn.

The big touring car had just whizzed by with a roar like a gigantic rocket, and Pat and Mike turned to watch it disappear in a cloud of dust.

"Thim chug wagons must cost a hape av cash," said Mike. "The rich is fairly burnin' money."

"An' the smell av it," sniffed Pat, "it must be thot tainted money we do be hearin' so much about."—Success.

## Would Not Break Friendship.

An editor, talking the other day in New York about Oliver Herford, said: "He sat in my office one afternoon when a young novelist entered.

"Mr. Herford," said the novelist, eagerly, 'I value your opinion very much. Now, I want you to tell me candidly what you think of my new book.'

"No, no," said Herford, hurriedly; 'let us remain friends.'

EUREKA SPRINGS, ARKANSAS

LOCAL ITEMS

Mrs. Fay Volner will entertain the Chafing Dish Club on Wednesday evening.

Still a complete line of Hand painted China and Cut-glass—at Diddea's.

Two Bronze beds and springs to be had at a bargain by calling at Vincent cottage.

Watch how nicely we can say, Tuesday morning, 1907, "No, thank you, no more goods on credit." Pickard & Son.

Editor E. C. Cooper, of the Green Forest Tribune was in the city today, enroute home from a visit to Cisco and Eastman, Tex.

Christmas is over but we still have bargains in Diamonds, Rings and Jewelry. Diddea's.

Oh, how happy our creditors would look if all our delinquent customers would come in Tuesday morning, pay their accounts and we pay the creditors. Pickard & Son.

Mrs. H. E. Rowe leaves tomorrow for McCook, Neb., to see her father, who is quite feeble and not expected to live long.

Pickard & Son positively starts the New Year with NO CREDIT. Books are closed and cash buys the goods. Price will be nearly at cost and below cost.

Mrs. Moore and Miss Vance Moore gave a dinner party on Saturday evening to the following guests: Misses Annie and Marion Hilliard, Mrs. Gambell and Misses Nellie and Annie Perkins.

Mrs. M. Bryan, who has been at the Belding for several weeks, leaves this afternoon for Emporia, Kan., where she will spend the remainder of the winter with her daughter, Mrs. Dr. Northington.

The Ozark 500 Club will be entertained this evening by Mrs. Jennie Wadsworth. Mrs. Sawdon was to have been the entertainer of this club this evening, but owing to the slight illness of Mrs. Sawdon, the above arrangements have been made.

M. M. Munger is in receipt of a very nice letter from his son, Charley, telling of the arrival of a fine daughter at their home in Los Angeles, Cal. The little girl has been named Etha Eugenia, and Charley claims she has cried only once in her first week's career.

NOTICE TO OUR CUSTOMER.

We are pleased to announce that Foley's Honey and Tar for coughs, colds and lung troubles is not affected by the National Pure Food and Drug Law, as it contains no opiates or other harmful drugs, and we recommend it as a safe remedy for children and adults. H. T. Pendergrass.

THE SYNDICATE COMPANY

THEODORE L. HAWLEY, Manager

Hugh Stockton has returned from Harrison where he spent his Christmas vacation.

The Idle Hour Club will meet with Mrs. Emanuel Falkner on Wednesday afternoon.

The Eastern Star will give a masque social at Masonic hall tomorrow night—January 1. Be sure to attend.

The Entre Nous Club, which plays the game of 500, will meet with Mrs. Willard Stapleton on Thursday evening.

Mrs. Robert E. Drain and daughter, Thelma, went on the early morning train today to make a short visit with Mr. and Mrs. McRoy in Fayetteville.

From the Fort Smith Times we learn that Rev. Sidney Brumfield has been re-elected pastor of the Lexington avenue church at that place.

One case of cows running at large within the city limits was on trial in the police court this morning. A fine of 50 cents and costs, \$2.40, amounting to \$2.90, was added to the city's revenues.

S. H. Dykstra, who has been here visiting Miss Kate Pell, returned to Fort Smith today. Mr. Dykstra represents a New York law firm in this section, and is a successful and rising young man.

Mr. Wheeler and wife of Los Animas, Colo., were arrivals yesterday and are guests at the Palace. Mr. Wheeler owns a farm near Leslie, which he will visit in a day or two. He and his wife will spend the winter in Eureka Springs.

Mrs. Grace Roberts Heideman arrived Saturday from St. Louis for a week's visit with her parents, Dr. and Mrs. L. G. Roberts. Mrs. Heideman grew to womanhood in this city, and her many friends are delighted to have her here.

In police court this morning the case of assault and battery charged against Henry Dubois on the person of B. Dean was dismissed. The case of disturbing the peace, against B. Dean was tried this afternoon and a fine of \$5 and costs was assessed.

Mrs. Sam Eaton is here from Osceola, Mo., visiting her parents, Mr. and Mrs. B. A. Langston. She and Rev. Eaton, the latter's parents, and Rev. Sidney Brumfield and family, all met at Aurora and enjoyed a family reunion. Mr. Eaton is having a very successful pastorate at Osceola.

Jack Whitehead entertained a party of young friends at her home on Vaughan street last Saturday evening. The young people saw ghosts, goblins and all such—and a good time besides. Refreshments were served to Ruth Seidel, Kathleen Woods, Juanita Ewing Gladys McCall, Emil Seidel, Bela Pendergrass and Lyle Block.

Charley Clothier has closed a trade for the Phil Grabach property on Mill Hollow—at one time a very nice place, but which has been neglected in late years. Mr. Clothier will have its former beauty restored. This is the eleventh house that Mr. Clothier has bought on Main street within the past two or three years.

Little Mabel Church was four years old yesterday, and her happiness was quadrupled by the presence at her home of some of her young friends to help celebrate the occasion. The birthday cake with its four candles, was the center of attraction, but there were other good things provided to please the children.

Some one shot Wade James' little fox terrier in the leg yesterday. This is not quite so valuable a dog as Mr. Weslow's fine bull dog, but still it is much prized by its owner, and Wade would like to ferret out the guilty one. There is a suspicion that one party is responsible for the shot that caused the death of Mr. Weslow's dog, and the wounding of Mr. James' fox terrier.

Announcement is made today of the marriage at San Louis Obispo, Cal., on Sunday, December 23, of Miss Margaret Frye, formerly of Gaskins, to Mr. Walter Postlewait, of San Louis Obispo. Miss Frye left this city where her parents reside, for California on December 19 and arrived on the 23rd, when the marriage took place at once, the Methodist minister performing the ceremony.

THE REPUTATION

OF selling good goods, "Merchandise of Quality," is far more valuable to us than the name of being a "cheap store." It is a fact that we mark our goods at the closest possible margin to have the price low enough.

WE DO NOT SACRIFICE QUALITY

When the market price advances we replenish with as good or, if possible, with a little better than the lines sold out, and advance our price accordingly. We believe in keeping the quality up.

WE BELIEVE THE PEOPLE

would rather pay a reasonable price for dependable merchandise than just a trifle less for the other kind.

THIS IS THE POLICY

adhered to ever since we began business and, after a test of seven years, we believe in it stronger than ever. Each year our business has shown an increase over the preceding one and, with the same methods, a larger variety of merchandise and the best store service possible, we intend to make 1907 the biggest year this store has ever experienced.

Perkins Bros.

The Elks are expecting a large crowd at their ball tonight. The young ladies are all wishing they had an Elk sweetheart, brother or friend so that they might enjoy the privilege of going. However, the Elks lodge has a long list of members, and there will be a big crowd.

Doctor Shepherd, president of the Arkansas Normal College, spent several days of last week in Clifty, Hindsville and other points in the interest of the college. He goes today to Grand View and points in the eastern district. He reports the most friendly feeling for the institution at all points visited.

E. G. Garner purchased through Blair Abstract Company the Wm. Davidson farm of 160 acres out near the tunnel. We understand Mr. Garner will have all the cedar and other timber on this land turned up and sow the land down in grass, he having faith in this section as a good location for stock raising.

Oscar Johnson takes charge of the lunch room at the depot on the 1st, and under his management the public is assured the best of service. Mr. Johnson will also put two newsboys out on the line, and will devote his entire attention to the business. He has sold his stock of groceries to S. L. Field. A. J. Campbell has rented the Johnson building and will move his stock of groceries into same.

Mr. S. E. Lynch and wife, of Carrollton, Ill., have taken up the lease of the Sweet Spring house from J. G. Pearce and will conduct the business of this popular hotel until the first of May, and if proper arrangements may be made will continue its management indefinitely. They are people of considerable experience in the hotel business and we bespeak for them a good patronage.

Will Watkins, youngest son of Mrs. Mamie Watkins, returned home yesterday, after a visit here with his uncle, Major J. T. Waddill. Will is a senior in the high school at St. Joseph, Mo., and has made quite a reputation as a foot ball player. He and his two brothers are of fine physique, their weight ranging from 165 to 190 pounds. Duval, the eldest, is an electrician, and Oz is collector for the Missouri Pacific road.

## Cream Baking Powder

Has a dietetic value greatly beyond the conception of any one who has not used it. It will make your food of a delicious taste, a moist and keeping quality and a digestibility not to be obtained from any other baking powder or leavening agent.

But more important than all else, Dr. Price's Baking Powder carries only healthful qualities to the food.

As every housekeeper can understand, burnt alum and sulphuric acid—the ingredients of all alum and alum-phosphate powders—must carry to the food acids injurious to health.

Avoid the alum powders—study the label

### Mining Notes

The contract for excavating for the Monkey Hill concentrating plant at Yellville, has been given to Ed Morrow of Kingdon Springs, and work will begin this week.

J. A. Owens says the Pilot Rock is showing fine. The miners are taking out solid chunks of lead as large as three men can hoist with a windlass.

The North Star Mining Company

his suspended work until after the holidays. The mine is in fine shape and shows a heavy deposit of ore almost ready to be shipped as soon as taken from the ground.

C. C. Horn has been doing some prospect work on his farm about two miles north of Yellville. So far he has not found anything except some pyrites of iron similar to what is found in the sulphur mine near the depot.

It is reported that the New South

mine will be opened up again the first of the year. This mine was showing a fine face of ore when it was shut down and was producing about a car load of ore per week.

The Silver Hollow mine is being drained preparatory to opening by the new lessees, who are Kansas City men. The work will be under the supervision of Mr. Rineheart. It is said that the mine will be worked on a more extensive scale than it has ever been.

Alva Ashcraft is opening up a prospect on his place about one mile north-east of Yellville. He has taken out some rock heavily disseminated with dolomite and spar, that is a good indication of zinc. The work so far has been near the surface. By going deeper he will no doubt find a good deposit of ore.

Superintendent Jenkins, of the Onwata, reports that operations will be resumed on that property next week, with good prospects for a successful year's work for 1907.

J. B. Hunter, of Chicago, is selecting a proposition in the field which he desires to develop. His only regret appears to be that he has not several million dollars to invest in the many sure things down here.

An expert examination of the Governor Eagle mine was made last week for eastern capitalists, by whom, it was rumored, the property will be purchased. As the Governor Eagle has long been regarded one of the best propositions in the field, it is to be hoped the property will pass into the hands of parties who intend to mine and not to speculate.

Mr. L. W. Hughes left on Sunday for his home at Stewartville, Minn., to spend the holidays with his family. He has during the past few weeks made a thorough examination of nearly every portion of the Marion county mineral field, and is so well pleased with what he found that he promises to return here early in the coming year. It is possible that in conjunction with Joplin parties he may establish a zinc oxide plant here. It is understood that a very desirable site can be secured on the most favorable terms near the railroad station.—Yellville Republican.

Mr. and Mrs. Bennett, frequent visitors from Northwest Missouri, are here on their annual visit and have taken apartments in the Cochran building.

## Stockholders Meeting

The Annual Meeting of the Stockholders of the Times-Echo Company will take place at the office of the President, Giles E. Miller, in the City of Eureka Springs, Ark., on Monday, January 21st, 1907, at 2:30 p. m., for the purpose of electing a Board of Directors for the ensuing year, and the transaction of such other business as may properly come before such meeting.

Giles E. Miller, President.  
A. W. House, Secretary.  
Eureka Springs, Ark., Dec. 21, 1906.

## New St. Louis Hotel

Under new management. Every-  
thing first class and reasonable.  
Terminus of Car Line, on Mountain.

W. J. MANNEY, Proprietor.

## Large New Cave Opened Here

R. E. Blair and A. J. Hill explored the Taylor cave recently and by a little work with a pick opened a new cavity which led down about 200 feet lower than any one had heretofore explored. It is their opinion that this cave and many others in the vicinity of Eureka Springs could be opened.

## Souvenir Menus at Palace Cafe

Pretty souvenir menus will be given away at the Palace Cafe tomorrow. Don't fail to get your New Year's dinner there.

## Married Under Difficulties

Luke Follett and Miss Lillie Upton, who live near Lockesburg, after an unpleasant romance which they experienced two years ago, were happily wedded a few days ago at the home of the bride's parents. In 1904 the young couple eloped from Miss Upton's parents and went to Louisiana for the purpose of getting married. Before the ceremony could be performed, however, Follett was arrested and returned to Lockesburg to face a criminal charge of kidnapping. Miss Upton was only fourteen years of age at that time. In order to escape prosecution the young man entered into a contract and bond that he would make no further attempt to marry the girl until she became of age. However, a few days ago A. R. Upton, the young lady's father, telephoned the county clerk that after last Saturday he would have his permission to issue a license for the marriage of his daughter and advised him to tear up the contract on file with the county clerk. On Monday the couple appeared at the clerk's office and procured the necessary license and were married.

For Over Sixty Years

Mrs. Winslow's Soothing Syrup has been used for over sixty years by millions of mothers for their children while teething, with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for diarrhoea. It will relieve the poor little sufferer immediately. Sold by druggists in every part of the world. Twenty-five cents a bottle. Be sure and ask for Mrs. Winslow's Soothing syrup, and take no other kind.

## JUST LOOK HERE !

## Our Family Washing Prices

are not high. If you consider all of the expense of materials and labor, you will find that it is very much cheaper to send your family washing to us to launder than to do it at home.

We wash the white goods white.

We make the colored goods bright and fresh.

We make woolens soft and fluffy.

We do it all with less wear and tear than it would receive by the home wash-board process.

Wouldn't you like to have us get your work this week? We'll surely please you.

## NOT THAT KIND OF TIES.

Youth Unaware of Nature of Job He Asked For.

About 20 years ago, when I was in Spokane, Wash., a young fellow was sent there from Boston by his father for his health, and, incidentally, to make his fortune, says a writer in the Boston Herald. He worked at his trade as a tailor for his health and gambled for his fortune. Needless to say, he lost both, for, at that age, he being about 19, he was a delicate youth.

His money and job giving out about the same time, he looked around for something to do. Chancing to pass an employment office, he saw on the blackboard, "Tie-makers wanted, 12 1/2 cents apiece." He walked in, and addressed himself to the man behind the desk, a big, raw-boned specimen, with a fierce mustache.

"I see you want tie-makers, sir," he said.

"Yes, we do, sonny; but don't you think you are rather too light for the job?"

"Oh, no," replied the young man. "I can sew."

"Sew," the other roared. "Why, great Scott! kid, these are railroad ties!"

## CATARRH CANNOT BE CURED.

with local applications, as they can not reach the seat of the disease. Catarrh is a blood or constitutional disease, and no rider to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces. Halls' Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing catarrh. Send for testimonials free.

## ECZEMA COVERED HANDS 11 YEARS

Cracked and Bleeding in Many Places—Became so Bad that Nail Came Off Finger—Tried Many Remedies and Consulted Three Doctors, but Got No Relief—Now Cured and Is Very

## PROUD OF HAVING TRIED CUTICURA REMEDIES

"I had eczema on my hands for about eleven years. The hands cracked open in many places and bled. One of my fingers was so bad that the nail came off. I had often heard of cures by the Cuticura Remedies, but had no confidence in them as I had tried so many remedies, and they all had failed to cure me. I had seen three doctors, but got no relief. Finally my husband said that we would try the Cuticura Remedies, so we got a cake of Cuticura Soap, a box of Cuticura Ointment, and two bottles of Cuticura Resolvent Pills. Of course I keep Cuticura Soap all the time for my hands, but the one cake of Soap and half a box of Cuticura Ointment cured them. It is surely a blessing for me to have my hands well, and I am very proud of having tried Cuticura Remedies, and recommend them to all suffering with eczema. Mrs. Eliza A. Wiley, R. F. D. 2, Liscomb, Iowa, Oct. 18, 1906."

## ITCHING PIMPLES

Resulted from Poisoning. Cured by Two Sets of Cuticura Remedies.

"My husband got a blood disease from wearing woolen underwear. He was all full of pimples, and he had an awful itching. He took a good many so-called blood remedies, and nothing did him good. Then we saw in a newspaper about Cuticura Remedies, and they cured him after using in all two sets of Cuticura Soap, Cuticura Ointment, and Cuticura Resolvent, and now I wouldn't do without Cuticura Soap. Mrs. Harner, 1050 Benner St., Reading, Pa., Jan. 25, 1906."

Complete External and Internal Treatment for Every Humor of Infants, Children, and Adults consists of Cuticura Soap (25c.) to Cleanse the Skin, Cuticura Ointment (50c.) to Heal the Skin, and Cuticura Resolvent (50c.), (or in the form of Chocolate Coated Pills 25c. per vial of 60) to Purify the Blood. Sold throughout the world. Potter Drug & Chem. Corp., Sole Props., Boston, Mass.  
\*Mailed Free, Book on Skin and Scalp.
