## THE WAY EUREKA SPRINGS WILL ENTERTAIN THE ARKANSAW TRAVELERS IN JUNE

CRESCENT HOTEL

On last Saturday there was a business meeting of the Arkansaw Travelers Association at the Hotel Marion in Little Rock, at which the arrangements for their coming convention in this city, next June, were considered. It was a most agreeable and enthusiastic meeting, and Manager Hawley, of the Basin Park Hotel, who was present, met with the officers of the organization afterward. He feels greatly elated over the prospects for a splendid meeting here, and believes it will be the grandest in the history of their organization, and the biggest and best convention Eureka Springs has ever had the pleasure of entertaining.

The following report printed in the Arkansas Gazette gives the committee in charge of the convention, and following, Mr. Hawley has outlined the requirements Eureka Springs will meet in affording the entertainment:

The Arkansaw Travelers held their semi-annual business meeting in the banquet hall of the Hotel Marion Saturday afternoon and made partial arrangements for the annual meeting of the organization to be held in Eureka Springs in June. The meeting was attended by about 175 members of the Travelers.

In calling the meeting to order, President H. S. Spivey said he took charge of the office with fear and trembling, and that he has been trembling ever since. He thanked the members for their loyalty, and said that if the association has been successful it is due to all the members and not to any one man. Mr. Spivey referred to the work of the Railroad and Legislative Committee, and said that while a 2-cent railroad rate has not yet been secured, the prospects are bright for the enactment of such a law. The hotel committee, Mr. Spivey said, has been as loyal as it was possible for one set of men to be to another, and as a result of its work he said he could already see clean linen and re-papered walls all over his territory. He also praised the work of the Press Committee, and stated that through its efforts the Travelers have received more free advertising than any other similar organization. Mr. Spivey said he belonged to all the traveling men's associations, but that

when it came down to doing things, the Arkansaw Travelers are the ones who do the work. He stated that he had appointed a partial list of committees, and that the appointment of the others was held up pending the completion of arrangements for the meeting at Eureka Springs in June. Referring to the promises made the Travelers by the people of Eureka Springs, he said he knew they would fulfill every obligation to which they pledged themselves for the entertainment of the Travelers.

The president read the following list of committees for the annual meeting at Eureka Springs in June.

Reception—D. G. Rogers, Fort Smith, chairman; J. J. Buchanan, Claude Sharp and T. D. Bourland, Fort Smith; W. M. Duncan, T. L. Hawley, and Joe Seidel, Eureka Springs; W. H. Byrd, Pine Bluff; Bob Finley, Fordyce; B. F. Reeves and H. E. Bunch, Fayetteville; W. D. Walls, Helena; Ed McElwee and M. E. Nunnon, Newport;

THACH COTTAGE

Barnes, Little Rock; Bert Johnson, John Davis and Capt. Ed Warren, St. Louis; W. R. Brown, Charles Jacobson, Sam Henderson and Hicks Malory, Memphis; L. H. Moore, Ozark;

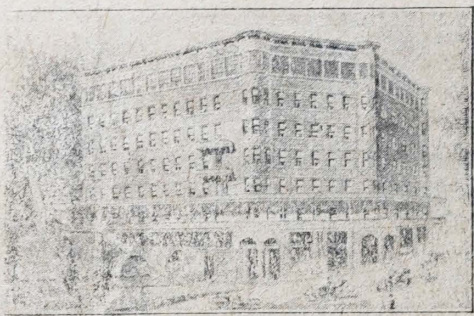

Dugan, Pine Bluff, chairman; W. H. Byrd, Pine Bluff; Arthur E. Edie and Claude Sharp, Fort Smith; Maj. Park Heaton, Jack Maloney and W. H. Barnes, Little Rock; K. D. Smith, Fort Smith.

Music—T. L. Hawley, Eureka Springs chairman; W. E. Wadsworth, Eureka Springs; J. E. Skidmore and H. K. Albers, F. Smith; G. L. Brummet and H. B. Byrd, Pine Bluff; A. C. Huddleston, Newport; George L. Turner, J. H. Duggins, P. K. Gunter, H. E. Thomas, Dean P. J. Robottom, Mike Foy and Major Park Heaton, Little Rock.

Dress Parade—Claude W. Thompson, grand marshal; W. C. Lavat, chief aide, and James M. Collins, W. R. Crow, M. A. Stevens, R. L. Long, T. L. Brummet and J. H. Duggins.

R. L. Long was designated as grand marshal of the Mardi Gras parade, and T. L. Brummet as aide.

President Spivey reported the "com-

BASIN PARK HOTEL

Park hotel at Eureka Springs was present at the meeting, and made a talk. He said Eureka Springs expected to furnish everything that it had promised. "All we want to know," he said, "how far we have got to go to deliver the goods and we will deliver them." It was agreed that the same class of amusements should be furnished as was provided at the meeting in Little Rock last June, and that all Travelers should wear the regulation uniform, which is, white negligee shirt, white duck trousers, white duck shoes, blue serge cap and purple tie.

President H. S. Spivey was appointed a committee to make arrangements for transportation to Eureka Springs and to secure the best rate possible from the railroads. Mr. Spivey said he would make a report at a meeting of the Travelers to be held in Little Rock in March. He also announced that the headquarters of the Travelers during the Eureka Springs meeting will be at the Basin Park hotel. Mike Foy, president of the Arkansaw Travelers Glee Club, said the club is arranging to give a minstrel performance during the Eureka Springs meeting and asked that one of the three nights be set aside for the entertainment. He said the club proposed to give an entertainment in keeping with the high standard of the Travelers.—Gazette.

Mr. Hawley and the officers of the Arkansas Travelers Association took up in detail the arrangements to be made by Eureka Springs, which are partially outlined below:

### First Day.

2 p. m. Dress Parade.  
9 p. m. Banquet.

### Second Day.

9:30 a. m. Mardi Gras Parade.  
2 p. m. Out Door Sports, Riding and Driving.  
9 p. m. Grand Ball.

### Third Day.

9 a. m. Business Meeting of Association.  
2 p. m. Reception and Card Party to the lady guests of the Travelers by the ladies of Eureka Springs.  
8 p. m. Arkansas Travelers Glee Club Entertainment.

What Eureka Springs is to furnish:  
Music—Three Brass Bands.

(Continued from Page 8)

BARNES-BLOCKSOM HALL AND HOTEL WADSWORTH

**REVIVO**  
RESTORES VITALITY  
"Made a Well Man of Me."  
THE GREAT REVIVO REMEDY  
Produces fine results in 30 days. It acts powerfully and quickly. Cures when others fail. Young men can regain their lost manhood, and old men may recover their youthful vigor by using REVIVO. It quickly and quietly removes Nervousness, Lost Vitality, Sexual Weakness such as Lost Power, Failing Memory, Wasting Diseases, and effects of self-abuse or excess and indiscretion, which unites one for study, business or marriage. It not only cures by starting at the seat of disease, but is a great nerve tonic and blood builder, bringing back the pink glow to pale cheeks and restoring the fire of youth. It wards off approaching disease. Insist on having REVIVO, no other. It can be carried in vest pocket. By mail, \$1.00 per package, or six for \$5.00. We give free advice and counsel to all who wish it, with guarantee. Circulars free. Address: ROYAL MEDICINE CO., Marine Bldg., Chicago, Ill.

## Berryville Items

From our regular Correspondent.  
W. H. Hodge left Monday evening for Joplin, Mo., on business, and will be absent for several days.

W. H. Lewis, wife and baby, went to Batavia Sunday evening to visit Mrs. Lewis' parents for a few days.

Attorney H. N. Pittman, T. H. Fancher and J. B. Fancehr attended Chancery Court at Eureka Springs Tuesday.

W. C. Davis, cashier of the People's Bank, and J. H. Hanna, of the Berryville Mercantile Company, went to Green Forest Tuesday on business.

W. J. Douglas, of Bentonville, who recently sold his interest in the Benton County Sun, has moved to this county and located on a farm near this city.

Mule, cattle, hog and sheep buyers are numerous in this section of the county and are leaving many thousands of dollars with the farmers for their surplus stock.

John Dennis and wife left Sunday evening for their home near Amarilla, Tex., after spending the holidays very pleasantly with Mrs. Dennis' parents near this city.

From personal interviews we have recently had with many of our best wheat growers, we note that the prospects for a good wheat crop are very encouraging at this time.

D. B. Horlsey, of Bentonville, prosecuting attorney for this district, was in town Monday looking over the docket of criminal cases for the February term of the circuit court.

Robert Henson, of Butterfield, Mo., came in Sunday and will remain here for some time looking at the country. He is stopping with M. M. Strother, who is an old acquaintance of Mr. Henson.

R. B. Kenner, of Osage township, was here first of the week on business with the recorder. He says he will leave in a few days for Western Texas, where he recently bought a section of land.

Marshall Carroll has charge of the sheriff's office and Henry L. Bunch the circuit clerk's office this week during the absence of the sheriff and circuit clerk, who are attending Chancery Court in Eureka Springs.

Dr. J. D. Jordan, of Eureka Springs, a member of the board of pension examiners for this county, came over Tuesday to examine S. J. Roberts of this place, who was unable to make the trip to Eureka Springs.

J. L. Russell, of Green Forest, was here Tuesday on business with the circuit clerk. Mr. Russell has quite a flourishing abstract and real estate business in Green Forest and furnishes the recorder through his office, more deeds and mortgages for record than from any one office in the county.

### A CARD.

This is to certify that all druggists are authorized to refund your money if Foley's Honey and Tar fails to cure your cough or cold. It stops the cough, heals the lungs and prevents serious results from a cold. Cures la grippe coughs and prevents pneumonia and consumption. Contains no opiates. The genuine is in a yellow package. Refuse substitutes. H. T. Pendergrass, Druggist.

## Stockholders Notice

Notice is hereby given that the annual meeting of the stockholders of the Blocksom Mercantile Company, will be held at the office of the Company on Wednesday, January 23rd, 1907, at 2 o'clock p. m., for the purpose of the election of three directors and such other officers as provided by the articles of incorporation and the by-laws of the company and to transact such other business as may lawfully come before the meeting.

B. H. Blocksom, Pres.  
W. R. Blocksom, Sec.-Treas.  
December 24, 1906.

Every good looking woman is interesting until she begins to relate her secret sorrows.

Complies with all requirements of the National Pure Food Law, Guarantee No. 2041, filed at Washington.

# A CUP OF GOOD COFFEE LIKE MOTHER USED TO MAKE

"Fresh Roasted Coffee?—bah! Mother didn't use fresh roasted coffee, she had Arbuckles."

The way to get a good cup of coffee that tastes like Coffee with all the delicious flavor and aroma intact, is to buy a package of the old original Arbuckles' ARIOSA Coffee, and grind it as you want to use it, first warming it a little to develop the flavor and make the grinding easy. Coffee loses its identity as Coffee after being ground or exposed to the air and is easily contaminated by handling.

Arbuckles' was the first roasted packaged coffee.

The pores of each coffee berry are sealed after roasting with fresh eggs and granulated sugar to hold the goodness in and make the coffee settle clear and quickly; an actual application by machinery, of "Mother's" methods—as patented by this firm.

Sold only in packages, sealed for the consumer's protection, containing one pound full weight. Sales for 37 years exceed the combined sales of all the other packaged coffees. The best coffee for you to drink, and saves your money besides. Same old firm, same old coffee. If your dealer won't supply, write to ARBUCKLE BROS., New York City.

## Green Forest Items

From Our Regular Correspondent.

Miss Allie Lawrence, who lives about three miles northeast of here, entered school at the public school Monday morning.

Rev. Geo. West and wife departed Friday for Texarkana, where Mr. West will accept a position as state missionary for the Baptist Convention.

S. J. Addison, who has been living on the Wash Benton farm about a mile south of town left Saturday for Elk City, I. T., where he will make his future home.

C. E. Baughman, of Coin, and Willie Coxsey of this place, entered school at the Normal Monday morning. The attendance now numbers about sixty, with a steady increase.

The family of J. C. Harbert departed Sunday for Leslie, there to join Mr. Harbert. Mr. Harbert is a former merchant of this place and the citizens of Green Forest will surely miss this estimable family.

A. N. Norris returned home last week from Everton, where he had been working in the depot for a few days, but remained only a short time and then departed for Leslie, where he will be employed in the depot there as night operator.

The Green Forest Canning Company will ship two cars of canned goods this week to the St. Louis market. They have yet on hand about five cars of this year's pack. The season just passed has been the most successful in the history of the cannery.

A partition is being built in the Lightburn building and other preparations made to move the postoffice to the back end of that building from its present site next door to the store of C. B. Grim. The front end of the building to which it will move is occupied by the Farmers and Merchants' Bank.

J. B. Reeves made a trip to Leslie last week and purchased the shares of the Green Forest Canning Company, belonging to J. C. Harbert of that place and immediately on returning home sold the shares to J. H. Reeves of this place. The cannery is now owned by J. F. Wallker, J. B. Reeves and J. H. Reeves.

You can't have both

## Something of Interest to Strangers

WE wish to call your especial attention to the fact and have you remember that in this section of the State of Arkansas we are in the Ozark Mountains, and that it is a rough mountainous country—no prairie—that the mountains are interspersed with valley and ridge farms, the products of which bring a better price than the products of farms in a section where all the land is tillable; that while much of our land is gravel formation it is very rich and productive; land is cheap and this is an ideal country for the man with small means. Energy properly expended will net a man more here than on five times the amount of land in Illinois, Iowa, Ohio or Missouri. When you come here do not expect to see a prairiecountry; but be prepared to see mountains, hill, rocks, gravel, rich soil, pure water, good climate, and a healthful country—a place where the cultivation of berries, grapes, garden truck, peaches, apples, pears, cherries, plums and all kinds of grasses cannot be excelled, and where

# LAND

## Will Quadruple in Value Within 3 Years

5 room new modern cottage, within 1 block of and level walk to street car line. Make an offer.

5 room new modern cottage near standpoint, lot 100x200 ft., set to fruit and strawberry, ideal suburban home. Make an offer.

10 room residence on Spring street, corner lot 80x80 ft. If sold soon will sell at a bargain.

Will exchange any one or all of the above properties for Southeast Texas property.

No. 2 D. \$600—160 acres 5 miles northeast of city, adjoining No. 1; 15 acres in cultivation, balance rough mountain land, good for fruit, berries, grapes and pasturage, fair 3 room house, small barn, very little timber, within 1 mile of railroad station, watered by good spring.

No. 4 K. \$1,000—40 acres 3 miles southeast of the city, 15 acres in cultivation, balance rough land covered with timber, but no saw timber, new fence, 4 room frame house, good new barn, poultry house, green house 12x70 feet, spring of pure, cold, soft water, three-quarters mile to school and church, all varieties of fruit. We will exchange this tract for residence in Springfield, Mo., and pay some cash difference.

No. 5 A. \$5,500—1100 acres unimproved, six miles south of city, on which there is a large amount of white and black oak saw timber. This is a rough mountain tract, there only being about 200 acres of good, tillable land, the balance being ideal for the culture of grapes, berries, fruits and g. ass. This would make a fine stock farm, being especially adapted to sheep, goats and hogs. The tract is well watered by a permanent spring of soft water. There are strong indications of lead and zinc on this tract. Will exchange clear for clear. Make a close study of Northwest Arkansas and remember we predict that land will advance 100 per cent within eighteen months.

No. 6 J. \$5,000—220 acres 6 miles east of city on Kings River, being the land purchased by a traveling salesman for his brother. His brother's wife, who was raised in the city, is dissatisfied with farm life, hence this tract will be sold at a sacrifice. 140 acres bottom land in cultivation, which will raise 60 bushels corn per acre; 30 acres in clover and timothy; 40 acres virgin timber on the tract, and there is not to exceed 10 acres of waste land. This is rich, fertile land and will produce all kinds of crops in abundance. There is a small orchard sufficient for family; fences all in first class repair; 2-story 8-room frame house and good barn; 2 wells soft water and one permanent spring. If you are looking for an A1 farm you cannot get a better bargain.

No. 7 B. \$400—40 acres timber land, 3 miles west of city, timber consists of oak saw timber, and we believe, owing to the scarcity of fire wood in this city, that this tract is well worth the price asked for timber alone. The land is rough, but is good for fruit, vegetables, berries, grapes and poultry. There are indications of zinc and lead.

FOR THE MINER—No. 8 B. \$1,200—40 acres in Marion county, Ark., situated in the Sugar Orchard mining district, and surrounded by zinc mines.

No. 9 B. \$200—20 acres 2 miles east of city, mostly level, good spring, no improvements.

5 room cottage on Fairmount Ave., lot 40x80 ft. for \$1000.

We have a number of lots 100x100 ft. in the Standpipe Addition we can sell for \$25 to \$350 each, on easy payments.

Advertisements carried in the Daily will be inserted in the Weekly at the same rate per issue. Reasonable discounts made on yearly contracts with reliable firms.

Entered at the Post Office in Eureka Springs, Arkansas, as second-class matter.

**GILES E. MILLER**  
Editor and Business Manager

No one has a monopoly on the plan for the advancement of Eureka Springs. If you have a better one than any under consideration, trot it out. What the people of Eureka Springs want is united action on some good plan.

Some people are built for small towns, and cannot contemplate breadth and growth. If they don't like somebody or something some other fellow has done, they just won't "boost" for fear they will boost the other fellow. If we do not mistake the modern gait and determination of those who are doing things, such people are getting themselves on well lubricated chutes that will give them a quick ride down and out.

That man down in Little Rock who got robbed of six thousand dollars the other day was advised by the teller of the bank to take exchange for the money rather than carry it. The man explained after his money was gone that he could save one dollar and a half, the exchange cost, by carrying the currency. He reminds us very much of the man who owns a business

or property in Eureka Springs and hesitates to join the enterprising citizens in a movement for the advantage of the city. The expenses of one hundred and fifty cents would have saved this man \$5,998.50. The expense of a like amount in advertising Eureka Springs each month will greatly enhance the business of the city and the value of your property. "Boost."

About two weeks ago, the Times-Echo printed a communication from Prof. Jas. Gurney, of St. Louis, regarding a city park and suggested its establishment around the stand pipe. The suggestion received the hearty approval of a large number of citizens, who are urging that the city council take action to secure the needed lots there, for a park. Already some have denoted an intention of donating toward its beautifying and others have suggested that the water from the Johnson spring could easily and with little expense be forced to that point, where a beautiful drinking fountain could be established. No doubt this could be made a very beautiful point at a small cost, comparatively. The fact that

Prof. Gurney has offered his assistance in its establishment, and his well known generosity, is an item that citizens appreciate and do not want those in authority to overlook.

Already there are rumblings of the city campaign. But they are more tolerable than usual. The almost unanimous sentiment of the people is being expressed as opposed to the drawing of party lines, and the next quota of city officials will be selected on account of their fitness for the offices. If they are working for the up-building of Eureka Springs and capable of rising above personal jealousies, they'll do. Put the best men in town to the front.

## The Improvements At the Reservoir

Last November the Daily Times-Echo started a movement for needed improvements at the city water works reservoir, and worked persistently until a fund of four hundred dollars had been raised for that purpose, of which the Daily Times-Echo contributed more than one-fourth the total amount.

It was the original intention of the manager of the Times-Echo company to give the whole amount for the improvement in consideration of four hundred annual paid-in-advance subscriptions to the daily paper, but through the influence of General Clayton, a public meeting was called, and the matter was taken up by a citizens' committee, which succeeded in raising the balance of the fund by public subscription.

Since then, there have been frequent inquiries as to when this work would be completed, and some dissatisfaction has been expressed by contributors to the fund, that the work is not under way.

Superintendent Monagan has made strenuous endeavors to secure the necessary attachments to effect this improvement, and has repeatedly sent orders to various houses for same. It seems that the size of the fittings required is an obsolete one, and has been practically discarded by the foundries where such material is made, and will have to be specially made for this improvement. Mr. Monagan states that he has finally placed the order, but that the houses inform him their foundries are so crowded with orders that they cannot promise an early delivery.

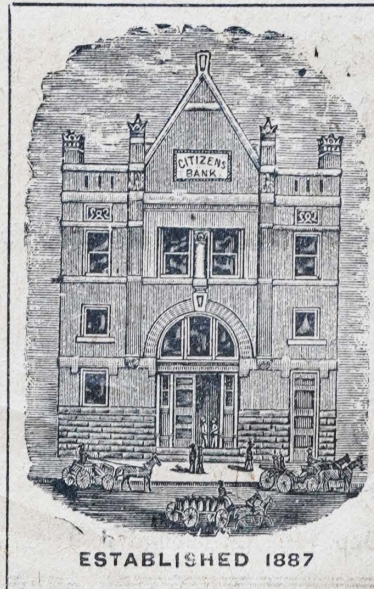

He has thought a number of times of personally making a trip in an endeavor to hurry up these supplies, but his duties here have been so pressing that he deemed it inadvisable to leave, and he is now superintending the extension of the water mains in the southern part of the city, and finds it impossible to go.

He assures us that he has used every possible endeavor to get the work under way, and displayed a bundle of correspondence to substantiate this statement.

At the outset of this movement, it was the publisher's intention to work in conjunction with Superintendent Monagan, and personally aid in the purchase and pushing of this improvement, but when the citizens saw fit to take hold of the plan, and appointed committees and secured the subscription, he willingly turned one-fourth of more than one hundred of annual subscriptions to the citizens' committee fund, and resigned any responsibility further than to aid in raising the required fund.

We feel that it is only justice to the Times-Echo to make this statement, inasmuch as some of Eureka's prominent citizens are frequently asking about the progress of the work. We have made insistent and persistent requests of Mr. Monagan to hurry up with the work, and believe that he has done everything he could. He states that he hopes to get the work completed sometime in February, but that it depends solely on his ability to secure the required supplies.

FOR SALE—The Wickersham Cottage, next to the Thach on car line. Nine rooms, all plastered and furnished. Price \$2,000. City and cistern water; corner lot; title clear. Call and see. Time on \$500.

## Gov. Little Better Every Breeze Sings.

Little Rock, Jan. 22.—Gov. Little is much improved today, but the physicians will not allow him to perform any duties for many days yet.

Gov. Little suffered a physical collapse yesterday morning as he stepped from the car in front of the state capitol to begin the labors of the day. So complete was the collapse that he had to be assisted to his office by his son, Paul, E. B. Jett and others who were present.

There seems to be no possibility of a doubt but that Gov. Little will be forced to remain away from the office for several weeks. If he should accept the advice of physicians and friends and leave the state, President John Ike Moore of the Senate would occupy the office pro tem. This would mean the election of another presiding officer in the Senate, but otherwise the situation would remain unchanged.

A collapse just at this period of the legislative session is deplored generally by the friends of Gov. Little about the state house. His induction into office last week was the signal for harmony where strained relations had formerly been the rule.

## For Private Sale

Four room Cottage in good condition. Close in. Plenty ground. All kinds of fruit. Splendid garden spot. Comparatively level. Address J 21, care Times-Echo, if you mean business.

## Opera House

All next week, Martin's Famous Family Band and Vaudeville Company, will begin their engagement next week.

These people have made the greatest reputation ever achieved by any musical organization or entertainers who ever visited Europe.

Mr. Weslow is trying to have these people make Eureka Springs their home.

Excellent service—homelike service, good food, reasonable charges. Everything neat, tastefully arranged.

Don't forget the Martin Family Band and Vaudeville Company at theatre. Popular prices—10, 20 and 30 cents.

Invitations have been issued by Mesdames Pickard and Blocksom to several lady friends "to take time to come to a Topsy Turvey Tangle Tea at 2 o'clock tomorrow afternoon at The Gables."

Louis Roach received a telegram this morning announcing the arrival of a fine twelve pound boy at the home of his sister, Mrs. M. A. McKimmey, at Joplin.

Flowers of different varieties are blooming in the yards of Eureka Springs, and people are already thinking of gardening. Mrs. C. R. Booker has planted lettuce and radish seed.

O. H. Phillips has sold his residence property on West Spring street to E. E. Powell and will give possession on April 1st. The transaction was conducted through the agency of Mrs. R. B. Ray. The consideration was \$1,250.

Judge Granger will entertain the members of the Elite Whist Club at dinner at the Basin Park Hotel, Friday evening at 6:30. An invitation to be a guest of Judge Granger is good for a delightful time, for he is a charming host.

There were three cases of disturbing the peace before the police court yesterday, and one case of drunk and disorderly. Today there was one case of cows running at large within the city limits. Fines and costs were assessed in each case.

Deputy Sheriff Coffey went out on Kings river yesterday for the purpose of arresting a man for beating his wife. The party lives near the state line, and so far as managed to elude arrest, by simply crossing the state line upon the approach of an one whom he suspicions being an officer.

There were twenty or more arrivals on the 8 o'clock train last night. It seemed like the good old summer time to see them filing into the various hotels. In fact yesterday was a banner day for arrivals. The Basin Park register shows a regular "busy season" page. Let the good work continue.

At the meeting of the Carnegie Library board last Saturday it was decided to ask competitive sketches of the architects, proposing plans for the structure. These sketches are to include the front elevations, floor plans and cost. It is proposed to grant the contract for drawing the plans to the most acceptable sketch.

The editor did not know that the public was so interested in the affairs of The Times-Echo until today, but the fact that the Annual Stockholders' meeting was held Monday was not over looked by a number of our readers, who have made inquiries as to the outcome. The same directors of the company were re-elected for the ensuing year, and measures taken to increase the capital stock.

Mrs. Chas. H. Russell, of Imboden, Ark., has been in the city for some time and while here has looked at several places in this vicinity with the object of establishing a pigeon and Belgian hare ranch. She has decided to make such a ranch close to the city, but has concluded no deal as yet, though she has probably decided upon the selection of property. She departs this evening and will return at an early date with her husband, when final arrangements will be concluded.

Miss Lucie Clark has been forced to discontinue her duties in the conservatory of music, and next week she will go to Russellville for a fortnight's visit with her friend, Mrs. Geo. McGlumphy. Miss Lucie has suffered extremely of late with a peculiar kind of headache, and her parents desire her to consult an oculist, believing her suffering is caused by too constant use of her eyes; they feel that properly fitted glasses will correct the trouble. She will either visit Little Rock or Fort Smith for this purpose.

Fine line of Ladies Shoes at  
WM. CHANDLER'S

No coupons issued at this store hereafter

Bryan Snyder, formerly general passenger agent for the Frisco System, arrived last evening and is a guest of the Basin Park. Mr. Snyder now resides at Rogers, and has large interests in the Arkansas Fruit Belt. He has hosts of friends in Eureka Springs, where his popularity never wanes, and they are making overtures to him to move into their midst.

The Beautiful Ozarks is a booster. Boost the Booster.

Friends in Eureka Springs are in receipt of announcements of the marriage of Miss Maggie H. Wilder and Alfred T. Taylor, which occurred at Jacksonville, Fla., on January 5th. The young couple will be at home to their friends after February 1st, at 257 W. 116th street, New York City. The groom was reared in Eureka Springs, being a son of the lamented Rev. Judson Taylor. To his mother he has been faithful and true through the years of her widowhood, and gladly would he have spared her every hardship and care. No higher tribute could be paid any young man, and we feel no hesitancy in predicting that he will likewise be faithful to the one he has made his wife.

The greatest event of the season at opera house next week. Popular prices.

Deestrick Skule  
Successful Affair

At the opera house last evening there was a crowded and much pleased house to witness the home talent production of that well endorsed comedy—The District School.

St. Mary's Guild of the Episcopal Church gave the entertainment, and are more than pleased at the result.

Every person on the program did themselves credit, and if any—"breaks" were made the audience were all the more pleased. A pleasing fact is the hearty good will expressed by the audience, which, to a unit, seemed to have come with a desire to have a good excuse for a laugh and took advantage of each failure to carry out this intention.

One thing appreciated by the ladies especially was the attendance of many out-of-town people, and the presence of district and county officials now in town during the session of the Chancery Court.

We are unable at this time to give the net profits to the Guild, from the receipts of the evening, but know that they will be good.

It is the hope of the general public that at no distant date the Guild will see fit to offer another and equally pleasing entertainment.

There were several who had parts in the play who are not members of this particular church, and who are deserving of special credit for their assistance. To these, the ladies express the most hearty thanks.

P. E. O.'s

The P. E. O.'s held their regular meeting Tuesday, January 22, 1907, at the home of Mrs. Emma Pendergrass.

We enjoyed very much having Mrs. Penman, a visiting P. E. O., with us.

After attending to the regular business of the order, the program for the day was taken up. A general discussion was held of two of our leading American women—Hettie Green and Alice Longworth. The leaders of these topics were Mrs. Emma Pendergrass and Mrs. Mary Hays.

The debate for the day was postponed on account of one of the ladies being absent from the city.

"'Tis better to have loved and lost, than never to have loved at all," even though the losing cause us many a headache. How much we realized it at this meeting when we knew that one of our charter members and loved sisters, Mrs. Katie Hays, would not meet with us again before leaving for her new home in Colorado. Just before the closing song, "God be with You Till We Meet Again," kind and loving words and best wishes were showered upon her. She leaves a host of friends; may she find friends and loved ones wherever she may go.

After the closing of the meeting an elegant luncheon was served by our hostess, assisted by Mrs. Katie Hays and Miss Annie Bellchamber. Our guest during the social hour was Miss Beadles. Journalist.

Dr. W. H. Pearce  
Died this Morning

Dr. W. H. Pearce, the aged man who was on the car that took the slide down the grade below the Crescent Hotel yesterday, died this morning about 5 o'clock. The physician in charge states that his death was due to nervous shock, and was not caused by bodily injury.

Dr. Pearce was ninety-one years of age, and has been a resident of Eureka Springs for many years. His extreme age and paralytic and other afflictions were well known to the people of this city, who are not surprised at his demise after the accident of yesterday. It would be a severe shock to a much younger man than was Dr. Pearce.

Immediately following the accident Manager Jordan of the Citizens Electric Company telegraphed the relatives of Dr. Pearce.

Dr. R. V. Pearce, of Howard, Kan., a son of the deceased, arrived on the noon train today, and has made arrangements for the conveyance of the remains to Tuscola, Ill., tomorrow, where they will be placed in the family vault, constructed by Dr. Pearce several years ago. Another son, who resides in Illinois, is ill and could not come.

Busy Day in  
Chancery Court

Judge Humphreys has been a very busy man today. The divorce mill was started grinding this morning and kept busy till adjournment. Owing to the absence of Attorney Walker and others, it was deemed advisable to adjourn court at 11 o'clock and reassemble at 3:30 this evening, at which time the case of Reed vs. Davey, divorce, will be taken up.

The following decisions were rendered by his honor today:

Chas. E. Davis, ex parte; title confirmed.

G. F. Baldwin vs. Lotie A. Baldwin, divorce granted and custody of the two children given to plaintiff; costs of suit to be borne by plaintiff.

Rose Ewing vs. Walter Ewing, divorce granted and plaintiff restored to maiden name; plaintiff allowed \$10 per month alimony, costs to be borne by defendant.

Mary Beard vs. George Beard, divorce granted on grounds that plaintiff shall not marry again for period of one year, if disregarded, decree to be null and void; plaintiff restored to maiden name and required to pay costs of suit.

W. E. Heilderbrand vs. Josie Heilderbrand, divorce granted; costs to be paid by plaintiff.

F. A. Morgan vs. Sarah Ruth Hatcher, decree of foreclosure.

The Extra Cent Society of the Presbyterian Church will meet with Mrs. J. L. Smith tomorrow afternoon.

If You Send All  
Flatwork

To the laundry you lessen wash day and ironing day work more than half. The linen will be whiter, cleaner and handled with less wear than it would receive in your own hands. We do no rubbing on wash boards. Pure soap, and an abundance of pure water do the work for us. Our prices on flatwork are very low. This includes the washing and ironing of all the sheets, table cloths, pillow cases, towels, napkins, etc., etc. Wouldn't you like to have us send you a wagon?

## Something about "The Gem City of the Ozarks," the All-the-Year Resort

### What Physicians Have Said.

Dr. Jacobs, leading dentist of Henry County, Ill., and a gentleman of more than ordinary discernment, education and professional ability, says: "I wish the world could know the value of the waters of Eureka Springs as I do."

"Many busy lives that are like the torrent rushing" will find in this cool and quiet retreat the required medicament for their overstrained nerves. In fact, disease, in all its myriad forms, finds here its most uncompromising foe."—Dr. M. R. Regan.

"The climate, pure air, and other surrounding conditions are, of themselves sufficient to cure malaria without the use of this water, but the water and these conditions combined will eradicate malaria from the system quicker than any remedy or locality that I ever heard of."—Dr. J. D. Jordan.

"In conclusion, I can say to the members of the American Health Resort Association, the medical profession in general, and to the invalid public, that as a health resort I believe Eureka Springs is destined to take a most prominent place."—A. J. McKay, M. D., in American Journal of Health and Climatology, Chicago.

"When Eureka Springs is as well known as she deserves to be, the liberal capacities of her hotels will be taxed to care for the invalids who seek the beneficial effects of a moderate altitude, mild climate and pure waters, without the necessity of a long journey."—George C. Mosher, M. D., Kansas City.

"Our climate is bracing throughout the entire year. As a general rule our winters are almost ideal. The Arkansas sun being warm all winter, the greatest invalid needs to be housed only a few days at a time. The scenery, surpassingly fine in summer, loses less of its beauty in winter than one would think. The dark green of the native pine and cedar forms a delightful contrast with the brown autumnal wood, and with the bright sun and clear sky characteristic of this region render it a cheerful place for the sick or convalescent."—Dr. M. R. Regan.

The Ozark air is not burdened with the bacteria that ever floats around the immense hospitals of the great cities and malarial districts. It is pure and its volume sufficient to aid in cleansing the system, and where surgery is required in treatment, the Ozark air is a tonic and bracer that enables the physicians to effect a larger per cent of successful operations than are recorded elsewhere. The perfect drainage, pure air and pure water form a combination that are especially inviting to the surgeon who has a difficult case.

The Ozarks are only one night's ride from St. Louis, Kansas City, Dallas, Memphis, Oklahoma City and Wichita.

### The Waters, the Climate and Other Points.

The Eureka Springs water has a soft, agreeable taste, pleasant to the most delicate palate and soothing to the mucous membrane of the stomach and intestines. It is satisfying to thirst, cooling and invigorating to the system, and can be used in any quantity—the more the better.

It is the greatest solvent in nature. It is the principal factor in healthy digestion, assimilation and excretion.

The Eureka Springs water is the clearest and purest of all natural spring waters. Its life, sparkle and crystal brightness are attested by chemical analysis, which shows it to be as nearly free from foreign constituents as a natural water can be. Each gallon of 231 cubic inches contains the following:

Chloride sodium	.....0.19 grs.
Sulphate soda	.....0.09 "
Bi-carbonate soda	.....0.15 "
Sulphate potash	.....0.13 "
Bi-carbonate lime	.....4.43 "
Bi-carbonate magnesia	.....0.47 "
Iron and alumina	.....0.08 "
Silica	.....0.31 "
Total	.....5.85 "
Free ammonia	.....0.14 "
Albuminoid ammonia	.....0.07 "
Parts in millions	

The gaseous contents are 28.52 cubic inches to each gallon of water. It is worthy of note that the gaseous contents of the Eureka Springs water are remarkable from the fact that there is a large proportion of nitrogen. This large proportion of nitrogen is proof of a proportionately large amount of oxygen.

The Eureka Springs water is not mineral water. Mineral water is drugged water, and as such is spoiled for all except the very few whose systems may need the drug it is said to contain. The constant use of a water containing mineral in any quantity is sure to result in harm, for it defeats the very purpose for which water is taken, viz.: to act as a solvent on the poisons within the tissues of the body.

The Eureka Springs water is an energetic solvent of uric acid and gravelly accumulations—the attested cause of gouty and rheumatic diseases. The activity of the kidneys and bowels is markedly increased by its use, and the waste products of the body eliminated, thus preventing or curing the chronic disease originating in the retention of poisons within the tissues.

The numerous diseases affecting the stomach, liver, kidneys and bladder are invariably benefited, and often cured by the persistent use of the Eureka Springs water. Immediate relief from the more distressing symptoms attending these diseases can be confidently expected from the beginning.

In kidney troubles the waters are very effective. The most obstinate and chronic cases have yielded to them, and even the supposedly incurable Bright's disease has been conquered.

Quick recovery is common in catarrh of the bladder and in the various inflammatory diseases of this organ.

Rheumatism, even in its chronic forms, yields readily to the free use of the waters, relief from pain being almost instantaneous.

Sufferers from liver complaints always obtain benefit. Cases that had progressed to the point of structural change in liver tissues have found a cure in the Eureka Springs water. Dyspepsia, indigestion, and the many chronic ailments of the stomach, though of long standing, are relieved. Ulcer of the stomach has in many instances been cured.

The average temperature in Eureka Springs during the four seasons of the year is as follows:

March, April and May, 61 degrees.  
June, July and August, 74 degrees.  
September, October and November, 48 degrees.  
December, January and February, 43 degrees.

Compare those with your home weather.

The average number of clear days per year at the principal points in the United States is as follows:  
New York, 100 clear days.  
Chicago, 108 clear days.  
Los Angeles, 171 clear days.  
Eureka Springs, 209 clear days

Nearly every day of the winter season outdoor recreation may be enjoyed. There are miles of mountain drives and bridle paths and good country roads, beautiful mountain scenery and pine forests. The livery service is complete in driving and saddle horses.

"The greatest tonic of all is water—pure, cold water—water unadulterated with minerals or drugs of any sort."

A Winter Day Horseback Party.

### What Prominent People Say.

One of Eureka's visitors was heard to remark that "God might have made more beautiful cities and more charming people—but He never did."

"There are few places in the whole United States more desirable, owing to its natural attractions, picturesqueness and environments. It is a watering place delightful and unique, with a reputation for cures that is astonishing."—Judge Thomas Fitch.

A. A. Eddy, of St. Louis of the well-known firm of Eddy & Eddy manufacturers of grocers' sundries, says: "The purity of the waters, delightful climate, and fascinating scenery all combine to make it a most delightful resort for those who need recuperation and relaxation, as well as those who are seeking pleasure or rest."

"Those who seek a quiet retreat in some shady nook where they may converse with the fairy elves who dwell in flowers, or listen to the murmur of the brook as it tells of all the beauties, the various pictures mirrored in its laughing face, or the wonders it has met on its way, may find it in the woods that surround Eureka."—Miss Gertrude Durey.

United States Senator Wm. Warner and wife paid their first visit to Eureka Springs. The Senator expressed himself as being both surprised and delighted with Eureka Springs, and said that he had no idea there was so charming a resort in this section of the country, and only a few hours' ride from Kansas City. He believes there is a great future for Eureka Springs. Mrs. Warner and daughter will spend the greater portion of the season at our resort, guests at the Crescent Hotel.

Geo. W. Moser, president of the Moser Paper Company, of Chicago, and wife, were among the early visitors to the resort this season, and spent several weeks at the Crescent Hotel before returning to their home in Oak Park, Ill. Both Mr. and Mrs. Moser are pleased with Eureka Springs, and spent a great portion of their time while here visiting the many points of interest about the resort, and think it is the most charming place they ever visited. They took home with them a glowing estimation of our beautiful resort to repeat to their host of friends in that section. Mr. Moser is a most jovial gentleman, the picture and personification of health, and while here was constantly on the go, and set the pace for a number of the younger guests at the Crescent; still he gained eight pounds during his stay. He was so charmed with the resort that he gave up a fishing jaunt on the northern lakes which was to have occupied a portion of the time of his vacation, and remained here. Before departing, Mr. and Mrs. Moser announced their intention to return next October and remain several weeks.

Further Particulars obtained by addressing Secretary Commercial Club, Eureka Springs, Ark.

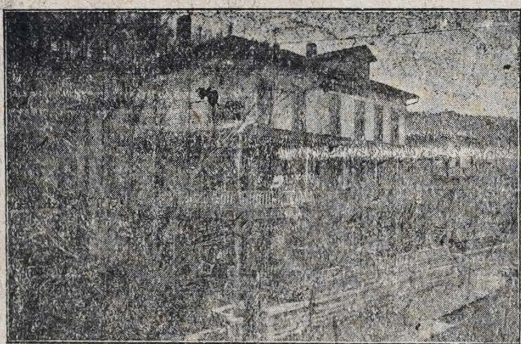

FOR THE ARKANSAS TRAVELERS---Continued.

Banquet—To members of the Association and their ladies.  
Grand Ball—To members of Association and their ladies.

ST. LOUIS HOUSE
