HOW TO USE YOUR DIAL TELEPHONE

SUPPOSE YOU WANT TO CALL "3140"

1. Lift receiver and wait until you hear a humming sound.
2. Place finger in opening where you see figure "3."
3. Pull dial around until finger strikes stop. Remove finger and let dial spin back freely.
4. Do the same with figures "1", "4", and "0." You will hear the other telephone ring (a "burring" sound) or the busy signal (a "buzz-buzz-buzz"). Don't hurry! Take time to dial correctly!

TO CALL ANOTHER PARTY ON YOUR LINE

1. Lift receiver and when you hear the humming sound, dial "9." Then . . .
2. If your telephone is on a:
City party line or a metallic (2-wire)
rural line, dial "1."
Grounded (1-wire) rural line, dial "5."
3. Then dial the last figure of your own telephone number.
4. Then dial the last figure of the other party's telephone number.
5. As soon as you have dialed, hang up your receiver. Both your telephone and the other party's will ring.
6. When your bell stops ringing, your party has answered. Pick up the receiver and talk.

If the other party does not answer, your bell will continue to ring.

To stop it, lift your receiver for a few seconds, then hang up again.
