THE SOUTHWESTERN TELEGRAPH AND TELEPHONE COMPANY

MAY, 1915

TELEPHONE DIRECTORY

—OF—

EUREKA SPRINGS, ARKANSAS

E. P. SEAMAN, MANAGER

IMPORTANT INFORMATION

FOR

BELL TELEPHONE PATRONS

This Company sincerely desires to give the best service possible and to this end will spare no efforts, and will thankfully receive any suggestions calculated to give any more satisfactory results.

UNIFORM COURTESY and politeness is an imperative rule of this Company and any infraction thereof will receive prompt attention if reported to the Manager's Office.

If service is unsatisfactory, prompt report should be made of it by calling the Chief Operator. Do Not make complaints to the operators, as conversation by operators, beyond that necessary to complete connections, delays the service. Complaints of service should be telephoned, not written, as a more satisfactory investigation is possible when an immediate report is made to the Chief Operator.

TO REPORT TELEPHONE OUT OF ORDER CALL TROUBLE DEPARTMENT. This suggestion is intended to secure immediate relief, but must not be depended upon. The subscriber must also give immediate notice to the Company in writing, signed by him, specifying the number and location of the telephone that is out of order, to avoid errors and misunderstandings.

TO GET NEW SUBSCRIBERS' NUMBERS CALL INFORMATION.

LONG DISTANCE SERVICE.

TO MAKE A LONG DISTANCE CALL:

Call the local operator in the regular way and ask for "Long Distance." When the Long Distance Operator answers give her the telephone number from which call is made, and the name of the person making the call. Then give the number of the telephone desired (if known), the city or town and the state. If a particular person is desired, give his name. If the number of the telephone desired is not known, give the firm name or the name and initials of the person under whose name the telephone is listed, and, if possible, the street address. "Subscribers are requested to pay for all toll calls originating from their telephones. The Company cannot identify the party putting in such call."

MESSENGER CALLS:

If the person desired is not connected by telephone, a messenger will be sent to his address to request him to come to a telephone, provided the party calling guarantees payment for the messenger service. The exact amount disbursed for messenger service will be charged in addition to the Company's tariff rates.

APPOINTMENT CALLS:

Appointment to talk at specified time may be made by notifying the long distance operator of the time at which the connection is desired. No extra charge will ibe made for appointment calls (except for messenger service when such service is involved), but the Company cannot guarantee the completion of the connection at the exact time specified.

COLLECT CALLS:

The charges on a long distance call, including messenger charges, if any, may be made against the telephone called, provided the charges are accepted by the party called. Requests to have the charges collected from the telephone called should be made when the call is given to the Long Distance Operator.

LEAVE WORD CALLS:

If the person with whom you wish to talk is not immediately reached at the telephone called, word may be left (without charge) to have him called when ready to talk.

REPORTS:

In case delay is encountered in completing a call, the long distance operator will advise the person calling, at reasonable intervals, regarding the cause of the delay. If a report is desired, call the long distance operator, and ask her for the information desired.

RATES AND CHARGES:

Rates for the long distance service are based upon an initial period of three minute and the three-minute rate will be charged for connections not exceeding three minutes. For overtime, beyond the initial period of three minutes, charge will be made by the minute for each additional minute or fractional part thereof. The long distance operator will not interrupt conversation to notify subscribers of the expiration of the first three minutes.

When a particular person is asked for, every reasonable effort will be made to establish the connection with the party desired. If the person desired is not reached, no charge will be made for the service rendered, except for messenger service, should such service be involved.

When no particular person is asked for at the time the call is given to the long distance operator, charge will be made if connection with the proper telephone is established.

REQUEST FOR CHARGES:

If a patron desires notificaton of the amount of the charge on his message he will save time by so advising the operator, at the time he gives his call. If the request for such information is not made until the completion of the conversation, unavoidable delay results while the operator obtains the rate and computes the charge.
